It's gonna get stronger with your eyes open.

Let yourself let it come in right recognize that there is a part of you that is guilty and ashamed and that that part of you that negative part of you deserves a seat at the table.

You don't all have to be a wonderful person you're allowed to be a negative person to you're allowed to have negative feelings. We don't want them. We don't want you to run away from them. That thing is not hideous right they're there, your whole life you've been taught that there are parts of you that are hideous that needs to change.

What's happening to it.

I'm doing a project,

kind of feels like an edge like I'm like, Okay, now you've done, put it away now like wrap up the chocolate put it away. No, no, like that's fine you are good, good. So notice that part of you right and then tell that part of you that

you're going to take a third piece of chocolate. And what you're going to do is this third piece of chocolate you're not going to necessarily push the negativity away, but you're also going to let yourself taste that piece of chocolate and just enjoy it as much as you can.

It gets to bark.

But you don't have to respond to it right you're not telling it to be quiet but you're also not giving into it. So the third piece I want you to try to really enjoy like really taste it. Pay attention to your mouth pay attention to the sensation of it. Pay attention to the way that it melts, pay attention to the flavor the sweetness the enjoyment.

We don't want to push away the squeeze Enos, you can breathe into it if you want to but really try to just enjoy the chocolate likes it looks like it's good fucking chocolate white chocolate delicious, and just be like yeah, this is great.

The last question. I'm gonna ask you and you're up to answer this the right way you can answer it the wrong way, is, is it okay for you to do this, is it okay for you to enjoy.

Is it okay for you to not donate that chocolate to a homeless person.

Stop reading my mind.

Is it

instead okay to feel both answers. Yes, that's the right answer, actually.

Right.

Because I have.

Wow, I have Wow, I have Wow, I have, well, I have the mental answer. And I guess the emotional answer, and they're both. Yep. Good. So, so now. Now, we're going to come to a close with this practice. So just sit with both of those answers, and see if you can find any emotional answer that resonates with your rational answer right can do you find any enjoyment within yourself. Yeah, so so notice that too right we don't necessarily want logic versus emotion we

want emotion versus emotion. We want you to recognize that there's a part of you that enjoys the experience. And there's a part of you that doesn't enjoy this experience that actually the emotion that you feel is a judgment for the enjoyment. So that's actually more of a rational process than I think you give it credit for.

Yeah.

So there's emotion versus emotion and then there's rational thought versus rational thought judgment, versus yeah of course it's okay for you to enjoy something, and then down here there's a sense of tightness and there's also a sense of like enjoyment or pleasure.

Yeah.

And neither you must do this. Okay, so you pick whatever it is, whether it's buying something for yourself and and understand that one day you may adopt a child or maybe you will adopt half a dozen because why adopt one when you can save six people like me, and then understand that one of the most important things that you can teach those children is how to appreciate who they are and how to derive enjoyment from life.

Yeah, right. And how are you going to teach them that unless you know it.

So do something for yourself, do like you're going to notice it's like I don't know if you go to the grocery store because of COVID or whatever but you're going to have a chance to indulge yourself and then you're going to rebel against it.

But, but support that part of you that bought the chocolate.

That's the one that we want right because in that moment as well it's like yeah get this chocolate.

It's a support that part of you because that, that part of you deserves to see that the table, too. And, and spend some time painting, and notice how you feel about yourself. And

even if you can't delude yourself or trick yourself into doing it for yourself. you can trick yourself into doing it by telling you that you're actually doing it for the child that you're going to adopt one day.

Yeah, right.

But do this and for people who are at home if you guys are way too indulgent. You can do the same exercise with something that is not good. I mean that is good for you that you don't enjoy, and just pay attention to what happens in yourself.

But anyway, thoughts or questions before we wrap up Anita.

No, this has been really great thank you for everything. Yeah, it's been an absolute pleasure to talk to someone who is just so aware of their internal environment.

And, and it's been awesome. And I think you're just an amazing person, it's been a blast, talking to you.

If you want to talk again we can dig into why the fuck this whole relationship thing and what you're afraid of there.

Sure, like that's a whole. That's a whole other can of worms but

I mean I love to help you understand that you deserve to be loved and committed to by a particular person, you know like you deserve that to like you deserve to be put first by someone.

Yeah.

Thank you. Yeah. Anyway, so it was awesome, thank you very much and stay safe.

Have a great evening. Adios I chat.

Okay.

We did meditation. Okay.

All right, so

let's think about okay so guys a couple of weeks have So first of all, so Anita is amazing. And let's remember I want you guys to be careful right because Anita is so positive but

like that comes at the cost of herself. And that's not something that we want, right, like we want her to like, you know, it's just not fair. It's not fair that she should sacrifice her own happiness or own wants for the sake of other people. Is it noble absolutely Is it good. Absolutely. Is it fair.

Right, so like let's remember that the way the world works is we sacrifice for others and others sacrifice for us. That's how karma works. So I think that it's amazing what she wants to do. But then, like, we should. And she's doing a good job and I think apparently twitch chat has taught her This is taught her how to receive right which is amazing like let's just let's not forget that that's that's awesome that you guys like think about this everyone thinks twitch chat is toxic, but y'all aren't toxic. You can be toxic and this comes back to Anita saying, Can I feel both of them at the same time. Absolutely. There's a toxic fucker and you, and there is a wonderful wholesome person.

There is AoE healing and there's AOE damage, right, that we are both things that she can love her mom and respect her mom and be grateful for her mom, and also resent her mom for being incapable right that's what kids do kids blame adults for all kinds of irrational shit. That's how kids operate that's why their kids. They're like where daddy like why does the sun have to go down I don't want to go to sleep. Why can't the sun STAY UP FOREVER Fuck you, dad.

Like that's what kids do.

But I don't get any of that from her. And it's okay to be, it's, it's there's a difference between being rationally upset with someone and being irrationally upset with someone.

And like it's okay to be irrationally upset with someone that's what most of being upset is it's irrational it's not logical, right.

So it doesn't have to make sense and you don't have to dismiss it.

You're allowed to feel the way that you, you do, even if it's completely incompetent. Now, should you let it dictate all of your actions No, but I think this is where I need to get into trouble. Is she does let it dictate her actions right she lets the relentless positivity dictate her actions. She lets the fundamental premise that she is worth worth less than other people dictate corrections.

And it looks so beautiful on the outside but it's not fair to her right and what's awesome is that twitch chat is his daughter, it's like you guys get this. You guys got her half like you guys got her there are probably a therapist who was life changing has something to do with that, let's be fair.

But when it comes to people who subscribe to her stuck around or, you know, sub for like 21 months or whatever like you guys sent her signals that were contrary to her worldview, which is that people. And that people don't have out, or that she doesn't have.

And that's amazing so I believe in the, the healing power of twitch chat and also the absolute toxicity in twitch chat I know you guys are capable of both. That's why it makes it makes it fun.

So, this has been fantastic I, you know, it was so interesting because when I, when I talked to people who were so capable and so awesome. I always struggle with the sense of like whether I can help them in some way, not that I need to right, but like Anita has come so far, but I want her to see that take that next step, right, I really want to. And, and, oh wow I need \$1,000 Wow, thank you very much I need that.

And, yeah, I mean I think like this is what we've got to do so this is what we want to do, right, so this is what we're doing right now is.

We are, we are doing Mental Health Awareness Month and we're going to help people. And the way that we're going to help people is through our recovery coaching program. And what I'm trying to do is teach people to like talk

to you guys and help you like figure out what is holding you back, because this is crazy, just think about this for a second right and he is such an amazing person and yet she is still holding herself back, that is, in response to something that she feels like I can't have children, like there are 1000 questions that I want to ask her.

And at the top of the list is one that I think is incredibly hurtful but I think she's got to explore, which is was she an unwanted child.

Like what's going on with like her being an unwanted like where'd words come from it infuriates me that she has to feel that way that she feels that way about herself. It's not fair. She shouldn't need to feel that way. And I don't know that we can do this but we're going to try so we're going to try to train coaches or we have trained coaches and we are understanding things. So we've collected data for eight weeks.

And we saw that the coaches can actually help people. So we're going to do this right because here's the problem. Here's what the game was about, she asked me why did I start streaming, so I'll tell you guys and this is why we're trying to raise money. So if you guys subscribe or donate or whatever like thank you very much, this is, this is what we're about. So, two years ago I posted on Reddit, I said, I'm a psychiatrist, who's interested in video game addiction asked me everything. Post hit the front page a lot of great responses and then people started reaching out to me and I was like Oh fuck. People think like, Oh, this isn't that wonderful at all like, oh, you're famous for Harvard. Oh, my goodness, front page also wonderful. I was actually terrified, my response was abject terror. Because what I heard from people over and over and over again is like help me. And then I said, I can't.

And then the next person said helped me and I said I can't, and the next person said help me and I said I can't and

that happened like literally a couple of thousand times. And then I was like, Oh fuck. There is a huge problem out there and like no one knows amidst COVID going on I want you guys to think about this for a second. Okay.

When COVID happened we tweeted out we said, How are you guys dealing with COVID and the response that we got, is that it's actually not that bad it's not very different from my regular life.

And so my first thought was, oh that's pretty cool like people are more adaptive towards you know COVID because they're gamers, but then another part of me like jumped up and thought something really horrible. The rest of the world is falling apart because they're quarantined, and we live like this every single day.

That COVID quarantine is a way of life for our generation that is fucked up. Just think about that for a second. It's not that we're more alike. The fact that we're adapted to COVID is fucking terrifying.

Right, that there's a growing population of people who lives like this day in and day out the rest of the world is fucking falling apart and we're like what the fuck is wrong with you guys. Just stay at home. Oh, you can't get your nails did like, Who the fuck cares, right but there's a generation of people who lives in quarantine their whole life. We heard her from Anita she was agoraphobic for years.

Right. The world is a dangerous place we don't want to live out there.

And what I heard from people was even more disturbing was that I went out and I saw a psychiatrist, I saw a therapist because that's what everyone says, like, oh you're, you're fucked up, go see a psychotic get fixed, you're ill.

You have depression, it's an illness. Right, it's an illness. It's not your fault man it's an illness. It's just something's wrong with you like your neuro chemistry is fucked up, man. It's not your fault. You're just something's broken in your

brain. Go and get that fixed and then you'll be fine. And they do that, they go on they see a psychiatrist psychiatrist talks for 45 minutes because yeah you have depression, because they check the DSM checklist right, we have a checklist of things that okay, if you meet five out of nine criteria, you have depression. Sleep change and interest, guilt, lower energy level concentration appetite sluggish and suicidality. You have five out of nine of those, you're depressed, and then they give them a pill, and they gave her reject lifelong foreign teacher goes home and he takes this ability so I'm fixed. I'm cure. And then they log on and they play video games. Next day, I'm cured I'm gonna take my pill, take their pill every single day and they continue playing the games and nothing changes.

And then these fuckers reach out to me, they're like can you help, because you seem to understand something that he's other people that are saying I'm like Oh fine. Why don't I start streaming on Twitch, it's because of Oh fuck.

It's because when Anita was at the meat market as a child. She saw a rabbit. That was in a cage that was gonna get butchered. So she tried to do something about it.

Y'all are my rabbit.

Right. I see the rest of the world, not doing for us what we need. I see mental health system that is too old. The average age of a psychiatrist in America is like 55 too old to slow How long does it take to get an appointment, oh three months, do you have three months to waste in a sense yes because you guys aren't fucking doing anything, but in a sense, no because if you're like a sophomore in college, and you get apps for three months your academic career is ruined.

And it's too expensive.

Right. How much does it I mean my hourly rate is astronomical and I see a lot of people for free and that's why I can astronomical rate.

But it's expensive, health insurance is expensive

depending on where you live, wait times are super long, they'll see you for 12 sessions we've heard horror stories, who was an inbred a couple of weeks ago, like one week ago, told us the story of how she went to see a psychiatrist, she was waiting for 45 minutes into her appointment, the guy talks to her for five minutes says I can't help you and sends her out the door, like what the fuck the mental health system is not meeting our needs right now. And it's so much more than just mental illness right there like so many problems like we don't have forward momentum. We rack up 10s of thousands of dollars of debt for jobs that pay us \$25,000 a year, like something is fucked up.

And, and, you know I don't I don't necessarily think it's our fault.

And so what what am I going to do about it.

What am I going to do right that's the question.

But what am I going to do.

This is what I'm going to do I'm going to start streaming on Twitch. And then the number of people that ask me for help, increased. Now we get thousands per month asking for help. So what the fuck like what am I going to do about that or am I just going to say like oh I'm sorry I can't help you I only have 24 hours in a day. That's what I did for a while and then I felt bad about myself.

I was like I have to do something like I can't just say, No, I'm sorry I can't help you.

I got to do something so I was like okay so we're going to start training people and like can I teach people to help others. That's where our coaching program was born.

Because I don't think that streaming is enough. Like I know that AoE healing is awesome. And I believe that people get healed but it's not enough right we got to do something about it.

And so this is where our coaching program is born. This is why we have a discord This is why we have a community.

I found out recently, this is amazing so I didn't do any of this on mods on Discord. They deserve a lot of props too. So there's like a cleaning hour, where people log on to our discord and they clean together for an hour.

We talk about our emotions we talk about our feelings we talk about all this kind of stuff. There's a coding workshop. There's a book club. Because here's the thing, the world is not going to help us. Right. We've learned that like it's not gonna help us like the world is not filled with people like the world was filled with people like me that you guys want me to do shit. Because you could sit around and do give life the 10% that you give it right now, and Anita will step in and give you guys 90% and y'all will be fine. But the truth is that they're not going to give you 90% I can't give you 90%.

I can give you 20% I can give you 30% It's not fair, it's fair it's not fair that it's 5050, it's sad, but we're going to do it and you've got to do it too. So you've got to step up, you've got to take the time to get help. Right, so that's why we're doing the coaching program. And we have way more people that want to be coached than we have capacity right now. So we're going to train more people, we've, we've had thousands of people who want coaching and not all of them can pay so we're going to try to make it affordable, and that's why we're doing the screen. Because some of y'all are broke which is fine, and we don't want to be an organization that turns people away due to probably will because we'd go under in a moment but, you know, That's why we're trying to do stuff like this, that, you know, I try to, I mean our retreat in 2019 was free. I don't know that we can do that again because the retreat may be way bigger this time I don't know when we're going to do a retreat, but it's one of our stretch goals I absolutely want to do it my whole fuckin team is like you can't do this dr K. You can't open your doors to the internet, because you don't know who's going to show up, but there's a part of me, the troll inside of

me it's like, yes you can. Yes you can, you can do something absolutely crazy because that's what streaming on Twitch is all of my colleagues who are psychiatry said oh you can't do this you're going to get sued.

So I hired some very expensive lawyers and they wrote me a lot of disclaimers and then we'll see.

So that's what we're doing. It's mental health awareness month so become aware of your mental health. Show up here we're going to be doing some fun stuff we're going to be doing some educational stuff. Probably a balance of both, right, so we're gonna do a lot of fun stuff.

And we make you maybe you guys will get learned, learn something maybe you guys will be healed in some way.

And, you know, that's the goal. And then if you guys really want to.

Yeah, join in. And all of your donations and subscriptions and stuff really help. I. By the way, I actually should just express my gratitude there because people like Anita and Lily Picchu and all of you guys who have been donating and supporting us I just want to say like a genuine Thank you, because I was funding the shit out of my pocket now like I can start contributing to my retirement and my kids college funds and things like that. So thank you guys very much, because it's great because now I don't, it's so awesome to not have to worry about paying my bills at the end of the month because I'm streaming instead of seeing patients. And I'm really really grateful for that and I want to do more, but I realized also that like I can't do it alone right I can't find everything by myself. So that's why I'm just eternally grateful for like every little bit that you guys.

21:46

If you, if you could choose where to be with me in 50 years
 So would that be

50 years. Ideally not dead. That would be the first thing
 that I'm going to establish I wouldn't want us to be dead in
 50 years. I want us to be alive and well. I wish that I would
 be able to maybe

take care of my favorite kink in a more
 reasonable way cuz like, do you have any kinks that you
 can't take care of, like for example my favorite kink is vor,
 do you know what vor is. So, so vor is, is something that I
 actually I can't, I like this is just a concept that I think might
 be cool, but I can't actually ever act on it right so vor is the
 concept of eating someone during sex,

like not eating by actually
 eating them.

Yeah,

like cannibalism during sex. But

I'm also not not talking about in the like cannibalism
 like, like say meat eating my own calm, that's not cannibal-
 ism. Does that make sense.

I guess it would you say, eating kids eating into your
 calm, would you say the eating.

Oh, maybe that

maybe that actually is like a cheat code to doing vor
 right, like, maybe I could just maybe I could just eat my
 common then that counts like maybe that's enough of a
 turn on, dude. You're so awesome you always find the sick
 workarounds like only No way. are you married.

If I could. Yes.

Do you think we would be a great hub.

No, I think that we would suck. I think that we would we
 would be a very dumb couple. I don't know if it would be
 dumb as dumb as Barry 74. I don't know if you know Barry
 74 is but he's very dumb he's a very likable guy though so I
 think that we might be likable as a couple

a guy who has a session about people that's very.

Stop

away Well, I like that people to stop.

I'll stop.

Well go on.

I wish I could be honest.

So yeah, how much that you mean to me but if I'm actually being honest with myself. You are not the girl that's most important to me, I'd say, if I was to be truly honest I would say that, that, that Katerina was my queen

was that,

because glue bye babe.

What are these dude glue by blade What the fuck, what is glue by blade. Do you know what the what the fuck that means Molina glue by blade, I can't even say it. Glue by blade chameleon What the fuck does that mean,

it's your words, dude.

Baba

Molina on the real How do you feel about kind of cannibalism like if you were on an island, and people died. Would you eat them

that's reasonable.

Speaking of like cannibalism and includes body parts and stuff. You have to you one thing that you should watch out is if anybody ever tells you to touch your elbows together, don't, don't do that Molina because no Molina Halina. We know what they're trying to, oh yeah that's good, that's good. Yeah, what they wanted. Good. You nailed it. that's

perfect. We're gonna do this. That's perfect.

So what. Yes. So what they're trying, what do you ever see when someone in your chat type, touch, elbows together what they're trying to do. They're trying to get you to go like, oh, oh. Moya, they're trying to get you to go like that So then, so then you're being. Yeah, I could do this. So they're trying to get you to go like this. Would you don't want to do.

I actually,

what do you think what they want me to do that. I don't know I don't know

dude I want you to do. I wish,

I want you to ruin my time, I want you to just rub my tummy mommy. I've been having image to alcohol a little Bobby needs a little Tubby Robbie. I need a little Romeo, Robbie ma Toby. Toby.

I would see as I do so much pleasure.

That's awesome. Thank you, or

Ellie's, just like Robin I would did. I would sit on it I would sleep by it, I would like do this with it now would you tell your tell me how much

you're borderline perfect, you know, there's a lot of non perfect people out there there's a lot of, like, really messed up people out there like think about the CX network like they are semester people and and you know it you are perfect. You are like Dingo the magic, in my opinion,

my opinion perfect.

Um, why do I think you're perfect, because, you know, you can't really do any wrong like you. You mean Well, you're looking at a fun time like if, if we hung out like what if we were just have a fun time together what what drug would you do

MDMA. Hmm. Hmm.

What's it like do you have you ever thought of like insane things while MDMA like what's the craziest thing you've ever thought of, like, say like, for like small dinosaurs gay dwarfs evil Santa Claus, like what's the craziest thing you've ever think thought of,

no you don't think about that stuff. thing. Do you know anything about him you

know almost nothing.

He's love everyone and everything. There's no word, you would use get right through, and there's no sexual like tension at all. It's just a central thing you just love. And I know

like if I did that with you. I think we would find, I think we would break all the walls.

But like before we do anything like I gotta know emelina answer this, honestly. Do you promise.

Any, any STDs.

I haven't tested myself in three months to be on.

But I've been using protection.

Really. Hmm.

Like by that you mean condoms.

Mm hmm.

That's good. That's good.

How are you,

I don't have sex.

Ever.

Um, no.

That's all right.

It's okay if I turn around for a second.

If you turn. Yeah, I'm

gonna I'm gonna turn around.

He has AIDS.

That's all right.

Nope. Oh yeah medication.

Boy, you know, it's very insensitive I feel like your implication of me asking if I do heroin implies that I do do heroin or that something's wrong with me. But, honestly, if there's anything wrong with anybody here I feel like it'd be wrong with you, like, if I'm not making it medication, then I should be asking you questions like, when did you last do heroin right like if you're going to ask that, that then me saying that's almost reasonable to you, or like, when did you last experience of no Spock like we could just start throwing out these stupid ass sentences that start to become reasonable you know what I mean.

Well they call me correct.

And do you think that's reasonable. Do you think that's

a reasonable thing for them to call him Molina,

I said that I did Heron once but I never did.

Some a hole just just gave me 200 feet and said you have a great face for radio Do you realize that that's an insult, a face for radio is an insult because it implies that your face should not be on a camera because it says, face to be on a radio which is only voice.

And that means that I'm ugly so

I think that's a little bit rude by that guy.

You really think so.

I'm so sorry when it Bert. Thank you. Thank you cubot for subscribing I'm really sorry when a bird, I really don't mean to.

I really don't mean a bird.

Like it. Maybe Chad doesn't like it but I

I just worry about like yeah we get along, but like,

What really is together like would you would you be the type of person to ever want my kids.

You want me to give birth to your kids.

I'm not saying that I do or don't but like would you be the type of person to want to do that.

Why not.

I'm in. Yeah. Can I

get to see in the chat Can I get some easy clap baby. Thank you.

I think we would have

Miko panties 16 yeah i think that uh

i think that i have some gorgeous jeans I think that, like with your beauty and my intelligence like we could birth, but honestly, I'm not too. I'm not really too in. In Greek like I'm not not a big fan of thinking that people are just genetically whatever like I'm a big fan of the environment being the bigger factor Are you familiar with environment. Like how kids grow up. What they're taught, I think that environments always gonna outweigh genetics,

beyond the countryside we could, you know what we could do. We could do you could impregnate me, and we could raise the kids in the hospital. How do you feel about that

in hospital.

What the fuck does that mean

if you enter my hospital and.

And then we'll have. And then we grow them up in the hub. Right.

I mean, you know what I know.

You know what, how bizarre.

Yes.

Hobbit. The Hobbit lives.

Oh, so like we're like,

oh Baggins I live in my kids

up there and then we can make them care about the environment by showing them the beauty of nature. You know I sent, I sent him some beautiful pictures of flowers. The other day chat. And I think I hope that makes you think that I really care about.

The flowers are cool.

When I respect you so much. You did.

Yeah, I really do. Because like some guys are so fucking gross dude some guys are like you're a slick buck me now. I would never do that you know I would never do that to you. Like, literally some guys would be like my asshole is gaping for you. I would never do that either you know some people are like, I'm Barney the Dinosaur I would never say that to you, I would never, I would never say I'm Barney the Dinosaur to you.

I think Barney the Dinosaur is really is really what

creepy, I agree. Holy shit. He's so creepy. I agree is wrong with the Americans I don't get it. But would you show them the perverts and irate

total perverts,

he would never shark it's like that right who should quit we would never ever show Bernie's design,

I would rather than show my kids stuff I would like to ask my question my kids questions like some really hard hitting questions like as soon as they could speak, I would want to ask me kid like is is God real you know like if you make kids consider that from like age three, like their guy they have to be smart like is God real like what your age like 21 like what do you think well yeah is God real you've had some time to think about it.

So I had a moment

when I was six. There was a girl in Sweden. This is so sad. This is sad, I'm not joking about this okay this is sad chat. Don't try to be funny about this because it's not funny. So you gotta be serious now.

I'm putting on my serious face.

It was a girl, my age, she was one year older. She gets kidnapped by an old man got raped and killed. And I felt so bad for her because she was my, she was the same age as me right could have been me could have been anyone in my age, any euro. This is not funny chat, not meaning. And I wanted to go to church, because I wanted to pray. But when I came to church, and I opened the doors.

There was, it was.

The church was closed. I was the church closed.

When she okay did did she live though she didn't die though right did was she Okay, we'll come to that.

I didn't know if she was dead or not so I wanted to go, the church and the church was was closed. Because schools booked that first summer holiday rehearsal to sing the last day of school. And they booked that shit every single fucking day.

Well here's the thing is like you could have still like
prayed for her, like if you, you know

no i'm not i'm not gonna wanna

listen I'm not a religious guy but if you wanted to pray
for her that you could do that. You could pray for you like
you don't, you don't need the church to be able to pray for
like she.

I know six.

Okay, that's a good point you were six years old. You're
saying,

I think my candle and like, and pray for this girl to survive.

That's actually That's nice of you, because like I feel like
that shows like true empathy right like if you are six years
old, and you're still like you're. She really did die died,

fuck dude go kill

in Sweden I thought Sweden was like a paradise.

This fuck man

no there's no man it was horrible. That sucks.

I wanna I wanted to do something. I wanted to pray. But
those fucking schools would fucking book the shit out of
that shit and warehouse like practice were songs at the end
of, like the whole Next, the summer holidays whenever,

because the reason why you're not religious. Yeah.

Ever since then, I committed to join the devil.

So, if the

devil, I would say that that whole story had like a literal
literal real impact on how you turned out, I would say that
that was a defining keynote in your lifetime, you know, that
being said thank you to kids Bob for twitch prime.

Well, so now I'm not religious, how do you feel about that.

I'm also not religious.

I don't know where it went wrong, but uh

i don't think you should be religious I

don't think so.

I think religion is bullshit.

But I think it's good to believe in something that makes
you happy and so I would never take a religion away from.
As long as you're not controlling it. Hmm.

So you're, you're a little bit of like what people do what
they want right like that's your ideology like people want
to do this if people want to do that just, just let him do it,
what's the what's the problem to you if you're not causing
harm. So what you know.

Wait, does it Mike some crazy. If I do this, can you hear me.

Yes, I'm saying, okay, Shane for Yes. No.

What did you say,

I was just asking about your cup size,
my boob size.

To be honest,

I actually don't know

why. I actually don't know.

You have to literally go to the store and buy.

No, I used to look at them and I'm like,
that's me.

And then I buy it actually bought one thing.

And that was like, I didn't I never tried it, I didn't know that
this makes sense. So I got it and they was perfectly. Right.
It's too many numbers for me ball I don't know.

I don't know man are you looking at my, I know, like
sighs with my eyes. Okay.

You really, you need help. Don't you like you probably
need a color coded Priya periodic table like you can't even
look at a normal one. I don't even understand what's going
on, like you need to look at like au, and then that's colored
in gold so then you can understand that it's gone.

Oh, look at him in so adorable. He.

Do you think it looks like I am trying really hard, pens, or
does it seem like he is trying really hard to get it, iPad sharp.

I'd say it's pretty obvious that you're way more horny
for me than I am for you I would say that's pretty obvious,

but that's good because if you do that, that means that people know that it's okay to be a guy and not want to have sex with a girl, a beautiful girl. As such as you

are not trying to have sex India though you understand that.

Yeah, I understand that but Chad needs to understand that and that's why, part of what we're doing is purely just progressive and in terms of society, because if you have a beautiful girl such as you and I say like hey Molina, I don't want to do you like we are making it normalized for guys and girls to be friends. Because right now, it's a little bit hard for a guy and a girl to be friends. You agree with that. It said, it's fine for you right like you don't have the problem of having like guy friends, but for somebody.

01:03:01

 grow closer together and just relax and just kind of be with
 each other.
 I just want to take this in right now, just be with you.
 Notice how beautiful the stars are in this beautiful night.
 Take a moment to recognize how beautiful this is. Before I
 fuck everything up before I destroy your night I'm gonna

to really understand our feelings.

Excuse me. I'm out. I want someone that loves me. I won't ever leave me that respects

me do that pick me. No,

I mean I think so but I'm, I'm not 100% sure.

But one thing that's holding me back.

And that is whether or not Rose was involved with her sister asking me for money. gone on,

because I

can I explain after dinner. Can we eat first and I'll explain.

Oh, thank you.

I want you to tell me now You

remind me of all my ex is dude I swear to God, they used to do some shit like this too, they would just like drop a little fucking drop a little fucking.

Just a little

finger point into the water just to shake things up a little bit. Oh, we're having a beautiful night. Let's fucking relitigate. Let's re litigate some shit. Let's. I've been holding it in the back of my head for a month, just sitting there, just right here waiting for the right opportunity. Oh, are we out for a nice dinner. We'll talk about this later. And then you're done. It's over for the rest of the fucking for the rest of the meal you're like, Okay, what the fuck What the fuck is it, I don't know, I don't know what did I do something. Then it fucking escalate bothers the devil.

What a waste of \$60. But for real thanks for the content, okay so

well. When I was in San Diego. Maria asked me for money for help, but also asked me not to tell you.

So, did you know about that.

Oh no, wait what just happened.

Big Ed. Read. You don't love the spirit of justice. You love your father the devil.

Own it looks like a hedgehog.

Be at don't wanna. Don't think that. But why did Maria, tell me not to tell you. Love the spirit of justice. You love your father.

The best react

if they come in, knowing if they were both in cahoots.

Oh, thank you,

me not to tell you.

So, did you know about that.

Did you know about that.

I just want to know the truth, because I cannot move forward, not knowing if they were both in cahoots.

I didn't know if you knew.

I don't know, either know anything about that. Oh.

Do you think I not loved you, because I love your money. I mean,

I don't want to think that. But why did.

Yeah, like, Listen, tell me girl there's no problem okay we know

not to tell you. All right.

We're on your side. Okay, it's all right.

Think I'm involved. The my sister.

I don't know.

I heard, because I think you will not see my love
 AP and AP sub, and I want to hear my sister sign up that
 story. I heard so much goes into like my, like my sister, we
 want your money network love.

But I don't want the money.

I feel like it's doing it I was here, not to get you laid ever
 again you're telling me you you're not yeah okay I be-
 lieve you. Okay, I believe you and
 your sister made me doubt you but no more.

My no one better than your

promise,

I promise.

With a Botha harness the relationship is code.

After speaking the rose. I am 100% sure in my heart that
 she's not involved. Just by the way she reacted. I'm feeling
 like I can completely trust rose. But I don't trust her sister.
 So what are we going to do about your sister.

Can you and I speak to her together. It's important to me.

It's up to my sister together. Okay, so my sister together.
 Okay.

I'm relieved.

I'm getting my sister a little bit, because you want behind
 my back.

I know Maria struggling on money right now.

But I don't want money. I love him and I want to be our
 wife.

So, what do you want out of this relationship.

Our relationship is I know this that a perfect, but I think
 both us one have been built in from family with my son and
 Toby is with you.

Oh my god. Here I'm thinking we're in a good place and
 now she brings up having more children, but I've been plan-
 ning a game of a sec to me, and I don't know how to tell her.
 I love you, I love you.

I don't want more kids.

I'm not sure how she's gonna feel about that, bro. I'm
 freaking raw. Now and again.

I love you, no doubt.

Is this good enough,
 a playlist is broken.

No neck Ed tells rose her sister is greedy part two of
 two doneck ed preps to tell rose don't kids ever. It's not
 it's not available, it's not available either the third one is
 two minutes. This is Rose wants babies with big Ed at
 three minutes.

And Peter Chu is pissed. Dude, sorry babe I just didn't
 want kids with you for months when I was planning on
 having a vasectomy the entire time. God damn peaches who
 is it might even call big Ed have a frickin Hecker dude.

He lives he was monster she lives, easy clap. You go
 queen. I mean, yeah. One person is in a dire financial situ-
 ation, a dire financial predicament, but she's trying to fuck
 her way out of. So, yeah, I feel a little bit more sympathetic
 to the person living in a fucking hot, as opposed to the other
 guy who flew to the Philippines, as a 54 year old man, the
 fuck a 23 year old. My bad, fuck is wrong with you,

literally just like just a crumb of fucking empathy dude
 Holy fuck, he's screaming or \$70, as he shipped five k worth
 of goods to literally nowhere.

He's like not even just trying to save ourselves just ever
 fucking son.

You really gotta hate like you really have to just, you
 really have to fucking hate women at that point to be like,
 dude, double standard much

okay where's.

Also I mean she didn't even lie we're just we're just as-
 suming that she does not love him.

Be fair.

I found a two bedroom apartment in the Philippines in
 a gated community for 220 USD a month, which means

he could have housed her family for almost two years the money he spent on shipping.

You don't love the
spirit of justice. You love your father the devil.
How could you not love.

We're on the beach, this morning on the island of Palawan. If you're thirsty. Do you want a coconut.

Yes, please.

I'll be right back. Last night, I confronted rose about her sister asking me for money. And I'm so glad that I did, because now I know for sure that rose wasn't involved. I trust her.

Oh, thank you so much.

We're in this great place.

I trust her about her gun good coconut, which mean, it's time for me to walk her day up again dude, calm to tell to tell rose I'm gonna fuck her life up again.

I can see myself waking up next to her for the rest of my life.

Working on

same. You want to go swim. Yes. Okay. I'll wait here.

He'll be careful. Yes. Not too deep. Thank you,
his past few days have been amazing. And I think I want to propose to her. But at the same time.

Rose wants to have two more children.

And I don't know how I'm gonna deal with that, how am I gonna tell rose I don't want more kids.

I need advice right now.

What's going on,

what's been going on with you man. There's so much that I need to tell you about.

Last night I made arrangements for the hotel. They set up a nice table right by the pool. Oh my god. handles Tiki lights everything,

make me nervous.

I didn't propose. But,

but there's a big butt. I'm like well throw rose Tell me what you want out of this relationship. You know, and she's like, well, I want two more kids. I want two more kids.

Dude, I didn't, I just, I just kind of ignored it I'm like, okay, and just kind of nodded my head and telling her right on your plan.

You already have an appointment here, which I've been told her and I don't want to tell her, but I'm, I'm going through with my bet the SEC to me.

That was the plan.

I think I want to propose. But I want four kids.

If you're really into this pillar.

You've got to tell her she's putting her whole life.

Two God dream.

Tell her that you don't want kids,

and give her all the reasons and give her an opportunity to make a decision. If she wants to keep going forward or not.

What if I, what if I lose her man.

Well, then it wasn't meant to be. What are you.

What do you mean what am i loser man,

I'm not really honest with her. It's not fair for me to ask rose to marry me,

or the chick is 23 years old, they're

scared of telling rose that I don't want more kids I'm afraid of losing her.

Pray to God she chooses us.

I'm gonna be honest, I'm gonna tell her you're right, you're right.

dude. Thanks so much. Peace.

She has it he wears the AED tells her later
on playlist is not blocked.

No Nick has to have a snip snip operation, oh this prepare Oh preps to tell. Okay, got it.

I want to swim in the pool I don't really like swimming in the ocean, is that okay

yes of course,
less sand. I'm all Sandy.

This is our second day in Palawan, and after I confronted her about her sister. I feel hundred percent sure that rose had nothing to do with her sister wanting money from me.

told me, my sister measures to one, money, and it was not 100% sure to me so I feel hurt.

But I can forgive him because I love him and prepared a bad boy Roshan unknown. Look at all those bad boy Pat who is that he's got on you know what I mean. I take one look at those tats I say that's a bad boy he's gonna break my heart.

I want to enjoy Our vacation.

Rose and I are in a really good place right now. I'm falling, more and more in love with her.

But there's something that I'm afraid to tell Rep.

By the way, I have to pause to say this but it has that jank body, that I was talking about where it's like dead. You know what I mean there's like muscle under that layer of fat. So he's been like he's not. He's not like pudgy fat, he's dense fat so he like if you punched him in the belly. I feel like it would hurt your hand that wouldn't like his belly isn't just like below I like just a blob of fat. It's like

thick. Then, I don't know how to describe it.

Rose, that I should have told her, a long time ago.

I don't want more kids, but she does

sooner. You want no loser. You

hear my best view.

I mean it's so sweet.

01:45:41

Be able to say the other word right.

And basically, people's logic is. Hey.

Our people

have experienced, just as much or having done in this in this and I've gone through this and this and go through this and this, we should be able to say to smile.

And I kind of confuses me.

That's all

kind of confused me

or building or building a coffee table.

I need a ranch Now usually. And you hook me up with some of a hot gamer guy friend of mine. No, I don't have any Well, I could hook you up with Ben Meister

on new year's show is huge. Okay.

Cuz it makes me weird for liking Capricorns Is that weird No. It's not weird a different strokes for different folks man of people like being isolated and in a way dude, I'm in the day no two people are the same, right. So,

I think six nine is a good rapper, I don't consider six nine though rapidly.

That's a little bit dated hands No I did not

all right yeah we did, we did the set. We're good.

It's a box. It's a one by one.

protected. Okay.

What's the next step here.

According to my calculation.

Myth you got a boner No, I don't.

Okay, here

are my calculations.

As you can see,

we must take the one

and put it into

the twos and threes. Then, after doing this process. We must take a C, but into a beef, use the allen wrench to then take the C and the B, through our A's and our twos and our threes, then through the a the one, so that we can then connect the one to the twos and the threes quite simple.

This is a very easy, simple process we could do this.
 I'm confident in our ability.
 Let's do it. Okay.
 yeah, we lay this down. Our fucking broken table tops
 bro I can't believe the shits fucking scoffed really pissed
 about that or not really I could give a fuck. but um yeah
 kind of sad that it's broken.

And then
 this goes this way. Right. Um. Damn. Okay, I see why
 you need two people to do this now
 optical illusion.
 What's wrong.
 Oh, is this fucking up in your brain is this way is the case
 fucking with your guys like perception.
 Okay, nevermind.
 Let me try something,
 get there by tomorrow afternoon.
 I don't want to bore
 you. All right.
 Let's do it.
 Let's go. I think we're just gonna do these one by one
 and hope for the best. From the inside or from the outside I
 don't remember what the instructions
 to one is the one okay what am I doing.
 Well, looks like we do these from the inside the outside.
 Pitch should be easy. Where's my hammer wrench.
 Oh no. Oh, it's in my pocket.
 The amount of times I fucking lost this allen wrench into
 my pocket. It's crazy.
 I'm making I'm making a
 coffee table
 for my apartment.
 Oh no, this is going to be so fucking hard. What the fuck
 am I gonna do this.
 It is impossible with one person

helping hand. But I have no one to help me.
 Oh.
 Oh, you're
 looking Matt
 can't do it. Oh,
 Come on.
 I can't find the hole bro.
 Are you kidding me.
 You're like the whole of the other side, who you're right,
 you're right.
 There's no way
 right everybody ready. Hey.
 Oh my god.
 There we go. Now we're talking Baby, I'm on
 what 500 chat came up with that. Ah, make that a lot.
 Turn around.
 I think.
 Yeah, it's going in I think
 this is doing nothing. Wait, I think I'm in there.
 Oh yeah,
 no, maybe
 it doesn't feel like it's going in.
 What the fuck
 is it. Am I doing this right where the fuck are the
 interruptions,
 bro.
 What are these fish reactions
 from these bees aren't long enough.
 Maybe are they.
 Wait, what,
 why do I keep losing this fucking thing, bro.
 Shame on it.
 By building
 a coffee table alone, it's really
 bad idea of

becomes two takes is supposed to take two people to build. And now I'm fucking one foot up trying to screw it in and grow. But it doesn't feel right dude it's like it's like it's not going away, am I missing the entire fucking thing it's not even in the hole. Oh my god I'm so fucking stupid

fucking hate.

Oh my god go in the fucking hole.

Please, I'm begging you.

Go, and

I can't find it.

Oh, he says.

Can't Wait Is there even a hole on this end. Wait.

That's what she said. Aha.

I put them on on the wrong way.

Wait No No No No, I didn't. There's no other way to put these on.

Oh fuck

away.

Oh wait,

no, no, there's no other way for these to go on.

I can't flip on.

Wait.

Wait. No.

You were the young architect, bro.

Chad is making this shit.

No man Come on this just doesn't make any sense.

There's no way.

I think the screws were used a lot on the table. I mean, can you remember the twos. Do you remember the twos, the twos. After the screw holes on, and the screw holes are facing this way, are facing me they're not facing the top. So literally, it's in the holes are facing the wall and.

Remember,

when you turn into an engineer, and

you built it wrong. Well, I mean,

I mean look,

when I say that I built it wrong. I think the instructions were unclear. Because I'm a little unsure about how the fuck these things should go on the entire time.

Remember, these instructions.

So I'm playing normal it's a three sets of threes and threes happen to scroll.

But there's no other way to put them on.

Okay, maybe only hold up. Maybe I'm actually stupid. Before we go ahead to Lehmann the instruction manual, why don't I just go ahead,

unscrew the bad boys

and see if it's me that's a problem. You know, what if it's me.

Okay, hold on, let me see. So, wait, no, no. Oh my god, you have to unscrew the other ones. Oh, this is why the fuck that I built this.

Oh, man.

Oh my God, this fucking thing, bro. This is exactly how I felt.

Literally, leave your address and fans will come help you in a minute at home. It's nice, really thanks for any helpers and chat.

As for helping Of course. No way.

Did I fucking.

These ladies Don't tell me you're fucked. Oh yes. I literally have to fucking. You remember all the screwing that you just did to get this cage bill to get this fucking square bill I literally have to undo it all.

I have to undo it all I have to do all the screws that hold whole lot, but we have not regress. There is zero. This shit is fucked. I literally have to take all this off, man.

Come on bro,

his sweat in over here.
 This is the hardest I've worked physically in months.
 Still step one and it's been over an hour.
 Oh boy.
 Well done. I feel like a fucking idiot.
 Oh dude I wish the instructions at this is why you read
 all the instructions before you start maybe maybe it's stupid
 like, do the instructions one by one man. Oh,
 wait, no, it's no way why that.
 Oh dude the fucking
 threes. Oh my god. Oh do that three along over there
 and this
 three
 belongs over here, bro. That wasn't in the instruction
 manual bro. Are you fucking kidding.
 Bro, that wasn't in the instruction manual chat, chat, it
 was not in the instructions that each of the threes belong to
 different sides bro,
 that literally was never
 in the instructions, it was not in the instructions. I'm tell-
 ing you what it was. I am going to say I'm going to call
 someone's fucking manager. Right. Someone. I'm going to
 call someone's manager, because this is ridiculous.
 Someone is getting reported. Yep.
 I don't know about that one coach.
 I'm pissed.
 I'm so sad that we are literally zero, beer, step and nega-
 tive one,
 a building this fucking coffee table.
 Is someone fire Taryn someone's gonna fucking fire.
 On to even take care of ads for me every 30 minutes. So
 that TSM doesn't drop me.

 ulations, we're officially back at fucking zero boys. Can I

 taking care of this.
 Hey. Okay. Tell me if you ever want to stop okay this is a
 very safe space
 to pitch off slowly evolving. Oh,
 no, they said rip it off faster or faster. Okay.
 Oh.
 Oh, more efficient faster. I guess it's worse if it's. Oh.
 Apparently Lily's mostly bad people for mentioning you

 What
 is really Feds fantasy being tortured by an Asian girl, and

 girl and being a bit
 tortured.
 She basically 19.
 Yeah, right.
 Okay, she's 19 guys.
 Then I'm making fun of your age. How old are you,
 25. Before it's going for. All right.
 So to dedicate dedicate, um,
 as you rip it off. Think about all of the times.
 As you rip it off. Think of all the times Fed is praying to you.
 I have you know the sad part is every time you know all
 of these here, that doesn't even amount to the amount of
 times I've been praying by you, by the way. That's so true

 scared the shit out of me because you put it there. When I
 was unpacking to scare me. I really
 yeah that's kind of funny. Oh.

ality website, and they have my age listed as 40. And then

She put alarm clocks in my room. She pulled eight of them, and they all went off at 838 4559 here yeah blow my brains nightmare.

Nightmare dude, and she didn't record it. There was still GoPro anywhere

for content but it wasn't because

it was because you're a

you I got a really good idea.

Yeah. But we have to get Lily to like not sleep in that room for that for that night.

So, yeah, I think we do it.

Michael has no twitch chat so no one can actually snitch.

It's almost done, we're almost, it looks a little ugly but it's almost there.

way I don't want to. I don't want that fix, by the way.

All right, next up we're doing my poor kind.

02:27:28

Designed compared to a fiberglass boat or a minion but also they get spent a lot more your site

previous by it used to be a few guys that was a best thing about that or was it a few it like the best thing was

putting the sky The space in the back of the boat yep always a dilemma way to put a scheme because of the ancient town yeah

so there's always a good news I do miss being on that boat was fun getting home cleaning it up having a beer

It was good there was a we're good dogs as well I would have liked if we thought of it's still possible I don't know I'd love to have some of those shots on video clips or something hard to find them how to

find them I had a bunch so I had a thing that but I got

fucked like I went went to

that was last year when I was in Asia for like six months. I had this big suitcase. I mean, every time I got on a plane, it was like \$350 extra charge because there's wait. So I just spent 350 bucks and I sent it to his house. And I had my laptop and a hard drive in there and stuff in there. And they took like the battery out of my laptop, so I don't have a battery. They took it out. They didn't even ask me You know, they just took it and fucking shipped it. And they stole my harddrive. It was a 42 had bought science I had about I had probably had 200 streams on there that are gone forever in this like I was just keeping all those you know, for when I get older, I can go back and check on them.

Because on Twitch they're only

like 660 days Yeah. 60 days 60 now

it's actually pretty cool.

I want to what I want to do before I know I'm I want to try and stay as long as I can. But I really want to, I don't even want to stream like I won't be able to stream but I want to go to that. That North Like to the continental shelf with you hanging in there by myself, I was the scariest fuck out there. That's where it goes from, like 200 meters to two K's right, guys to ridiculous, like 2000 meters at the Queensland. So it's just like 20 minutes north of the tip of Sandy cape man. It's only like it's just it's just north of freezing. But even in your auto like 40 knots, that's gonna take three, four hours to get there and it's right now.

If you have coming home in bad weather, it could be five to six hour trip just to come home. But that's what I work at is they all do it in the afternoon.

Right afternoon or the next day, like I did with sleep there and then wake up in the morning.

I can only imagine the size of a fish out there bro. They gotta be fucking as big as you and me and Simon all together. Yeah,

you'll get that when you go on your trip North right.
soon as you get out of this hobby by you get to be like he
caught a lot more fish here but you lie to you. Dialogue is this
one fish out to the next
for going up there.

Okay go up into the Gulf when you're heading toward
down button right? You got it down instead go.

Yep. Am I this
fish man and there's no population and people
say you just catch bigger amounts you catch that many
fish. Your testes are full and you're thrown back before you
die because you just got too many fish.

Well done. Oh, that's life. I used to live in MCI. I had a
big freezer

full of fish. All the time. I would leave every night. Gina was
less back when I was 35 years ago.

We'd come Hi, wow. Yeah, he decided that he was the
size of these tables a bit wider and that would fit in the boat.

We'd go out of bed. We have
100 kilometers out right now.

It was laughing I was like, damn.

What is the bleaching wet? What is that? What is it?

When I go back and think about what I've done, I can't
believe like, cuz reefs are what attract all kinds of fish. And if
it attracts fish, there's going to be sharks in there. And when
I went to Airlie Beach bro, we were out snorkeling, like and
I'm by myself, like the next person is probably bucking the
firepit and I'm a

motherfucking swing and I'm like, I'm so thinking I was
like hyperventilating when I'm fucking snore.

I remember one time was north and MCI a town hall
and we'd go out little teeny like you got here and off the
basement we went out at night I mean a couple of nights by
the on the terps we start catching a couple of shocks with
with butchers with Chuck demising the government blade

him and throw him back in well before we knew after about
a half an hour doing this, the water was boiling with shocks
all around this tittie and we're at about five miles in the
middle of the night in a bloody little bit like that. It is this is
getting a bit hot this guy but it's bizarre. It was wrong

to do but we were feeling

brown and black. I also track all those fucking shorts.

Well, I think it was that early beaches. I got my video on
there. It's on that laptop is that I thought that guy's

the one that Tyler let's get the slim one

you gave it back

to the pistol I'm

really pissed on a

brand new fucking laptop

basically on purpose like no we're she was super drunk.
she peed the bed when she was sleeping because we were
out partying all night.

She pissed but

yeah, this was the first matricide to replace

And then I was like, I had all my electronics in the room.
And I told him I said, Do this check the signal says up the
bed like I swear it wasn't me. Like I'll pay for the sheets,
whatever, like you gotta buy a mattress. So I get like, go off
and I come back. I went to the laundry or something. I came
here when I did, but I came I came back to my room. And I
always keep my room like I like know that it's those rooms
where you have to have the key card in or the electricity
beyond. So I got extra key cards from the hotels, I just put
them in that fucking thing and I leave the air conditioning
on. So when I get because it's like 30 degrees 90% humidity
out there, you know? And Zaki My room is 16 degrees all
the time. It's fucking ice cold. So I get the room on my behalf.
I go to my room and they open the fucking to sliding doors
because they didn't want the room smelled like piss. Well
that temperature change from 16 degrees to 39 humidity. It

was like it was like it rained inside the walls were just water going everywhere and it got in. It got inside that that laptop and so much moisture on it. It fried the laptop.

I was fuckin so pissed like he just ruined my fucking laptop like all my like all my all my streaming gear I had in there it was all wet. I was like oh man hobo stuffs not fucked and I never tried to plug in my laptop and then I tried to plug it in and turn it on like a month later I was like, Fuck, that would never work since this. Opened those fucking doors, man, open the doors. I do everything. I Well, I like, I like I woke up like butt naked. I like my sweet baby girl, you know, just chilling. And she like puts her leg or my leg but I'm laying in the bed and her calf is like super cold. They're like so cold. And they're like, Oh, I want it lexical ballistics she was laying in her own pistol all time, right? And then I didn't know I didn't know that and i and i and like we were we say it's like 7am party. Right? And then it was like, it was like three o'clock in the afternoon and I I was randomly with small piece They're like ours, I'd rather get a whiff of it as well. And then I like I'm trying to watch but I'm trying to watch a movie. There's a movie on this day The Movie Channel. It was a movie on our saying, I'm like, Fuck yeah, like I'll start my stream till six o'clock and then I got a couple hours like sound like we lay sideways because I wanted to like lay with her but at least I wasn't watching TV because the TV was like in front of like this My head's like way back here so we got to move sideways on the bed. And as I lay sideways, my whole I go to like lace I was in my whole fucking side just gets wet. I'm like and then I go Like oh god is it like she had to have known bro like there's no way she didn't know but she never Nothing and I don't want to be like, what the fuck bitch like I feel like I feel like one minute I was like, I'm not comfortable with this lay back the other way. It's better that like I sit on my dry side. I could ruin my fucking laptop bro. Reminds me of

something similar.

Exactly showing a how to announce that. And then the best part of this is the halls. This is the best part about this. The next I guess I leave Thailand. And she hates me because she's mad at me because she saw me with another girl. And I'm out there like, I love that every night. I'm trying to sneak around like I was playing like that. Four different sections. And I'm in this one section. That's my girlfriend when I'm in this section, that's my girlfriend and then I walk Isn't there she sees us and she's mad at me. Some gone from I went to like Philippines and Hong Kong and I came back to Thailand for like five days because my buddy there he's there for a little bit. I was like rabies is right before I came back. Australia. I go back there for like five days. And on the first night, I was like, Man, that matters. Anyway, so we hang out, right? And Yep, I'm not gonna pgt on here so you can only imagine what happened. I wake up the next day I go to lease okay Like oh yeah, this is great. Then

come back to the hotel room.

With a day My girlfriend from the other fucking sex Right and as I get to the like, Jesse,

like the like the people that work there Just one hotel for like couple months so they knew me they Austria and they all call me Jesse I want to speak title and stuff and they're always like One time I brought this one girl home She's like how many girls is brought here in the in the chicken It thinks it's like five this week. I'm like What the fuck? We're supposed to be friends why he's so busy like I can't believe you said that. She was fun call them all so because they have to give their ID when they come to the room. It's like it's in case it's something that gets stolen or something like that. So I bring this other girl back that I really like this girl It was like, my first time ever bringing this girl back. I was like, Fuck yeah. So I walk up to the reception. And she's like, Jesse. She's like

it's like This piece of paper and I pick it up I'm like drunk
and I'm like reading it and it says like blood on bed. New
No sheets, stuff like this

and And the girl that's with me is reading And it just says

what it was A normal amount of text messages or something.

Oh, that's crazy chicken on crystal meth. Yeah

In Bangkok and it was a real man.

He called me like 85 times An hour texted me. She's like

Cuz I was hanging out a lot of people in a bar They're going
out there so she was waiting at my hotel. I wasn't sleeping
on the off the fucking cracker lady. She smelled crystal meth.
I remember she's like you wanna go You smoke? Nothing
she's like talking about weed. I'm like hell yeah. So I go over
there. First thing she does is busting his butt naked. It was
fun sweet was watching the Thai news. I can't stop watching
the news because the news in Thailand It's like it shows dead
bodies and shit. Like it's almost graphic news I've ever seen

like it's just authentic news. And I just don't think she's like
getting a bomb out or something smoke weed and I hear this
little Like the bubbling you know, and she's like you want
some turn around and she has this little fucking like there's
like a like a crack pipe it was like glass is a glass ball and a
pipe and it had like a metal straw going out and like a One of
those other straws like the bendy straws. And I'm like, like is
that like is that weed? She's like, as she read it. She's like

I like it that way and she's like she I'll never forget the
way she looked at me. She's like

it's crystal meth. Baby

Okay Yeah,

I don't know what I don't know what On a I don't know
what to compare it to, but I was like, Man, fuck that. And
then that was that was like

I just made some I mean I'm always I'm watching In the
streets, I'm walking the streets right as we do on the streets.

Cool all that

Yeah, no, I'll never forget that. She's just like I can just
hear it all. There's like bubbling but I'm like I don't look
back because I'm just like Watching TV, and then

she's like this crystal mermaid.

There's like a scene from a movie. I'm like Oh yeah Oh, I
didn't know

I have to say I don't really like right now. There's no
like stone. It's more of a man's be I do go to drive so
heavy so thanks

On Roswell, that the person writing the book has an incen-
 tive financially to write a book

Yes, it is a doctor less good because he makes money being a doctor.

Aliens is kind of a loaded term I mean I think of non human intelligent guys.

What the fuck, kind of argument is that the chain of custody of that material, the thousands of people who've had experiences there's dozens and dozens of crash stories that are

beyond Roswell, that the person writing the book has an incentive financially to write.

Yes, but as a doctor less good because he makes money being a doctor. Aliens is kind of a loaded term I mean I think of nonhuman intelligence, which could be things people experience on psychedelics I woke up one day I complete material atheists, some friends salvia divinorum came was kind of like an instantaneous out of body experience. And then that felt entirely natural it felt more normal than waking life and then there were male and female entity of some kind and they spoke to me they're like wow we're surprised you're here i'm i'm surprised I'm here, and one was more cynical about the fact that I wouldn't be there long and the other one was just more excited about being there at all.

Guys, no one was like well

you know why, why are you even talking to this guy he's gonna be gone, it's gonna be gone, just a few minutes and it was like but he's here now. and

guys he's cooked past the cooking point the intelligences out there that are non human that we can interact with but that kind of changed my life actually.

I think people on the other side are missing form.

Think the data for UFOs and non human intelligence is pretty strong. I think you have to really dive into it because it's not being presented on the news, but when you look at it, there's no shortage of really credible sources that have seen some pretty incredible things, Paul Hellyer is the ex Defense

Minister of Canada, and he says, hey, there's these graphs flying over and they're shooting our nuclear facilities with some kind of beam and disabling them. I mean, that's fairly credible source. Right.

Well, look, anecdotal evidence, why some evidence but it's not strong evidence. As far as the physical channel.

Short would disagree with that. Have you ever tried a psychedelic. I have not.

I mean hey, we can figure this out pretty quick. Okay, you do it and then you tell me it wasn't real well so you're saying that something you take is going to create an external difference we can't look at that as evidence, any more than we can I drunk widens perceptions about consciousness, but that's from your brain that's like

a hallucination that's not really expanding consciousness like you're talking about like hallucinate, what's the difference. So I think science is also based on perception so you're talking about the brain and the brain being powerful, it's so as our heart center which science can prove has its own energy field around it and it's much stronger than our brain. So the point that I want to make is like science is based on perception it's a bunch of people perceiving studies a certain way, right, but so spirituality. The difference

was. It's not that five different scientists perceive something differently or in the same way they look at evolution no evidence toward a particular direction and it's repeatable, and it's falsifiable, we tend to say, well, that's what reality tends to be or seems to be

that's reality based on your perception no it's not a percent. It is everything.

Science is good.

Don't diffuse it then. We're guidance guys guys I'm not like a content like like director didn't follow them to defer to middle ground and eatable, okay.

They shouldn't diffuse falsifiable, we tend to say, well,

that's what reality

is everything.

Science is good to see,

he they shouldn't diffuse your content, let him be Brenda deal that's, you know,

it's a shit show did weird we're probably misinformed about a lot of stuff, but for the other side to say you guys are misinformed, I think is just as ridiculous because I think

that's like what I met honestly is like we all have our own truths and that's relative to you and it's valid.

Yeah, and I think and I think that that can be true for people and I think it's hard because I could be an expert it's meaningless to you but you could show me your expert and it's it this is the right one. And so it's interesting because I work with a lot of Muslims okay they're saying, you know, I've spoken to my God, then a Christian says, Muslim God's wrong but I've spoken to my god and a Hindu says you know I've actually recognized and remembered my past life and I have I can name it down to a tee. And so if we get to that point I think everyone would then just be right and we know, there would be no actual unifying reality but the science is terrific community saying we want to create a unified reality between each other so we can progress in our own way. And that's why science we would never say there aren't aliens or are aliens you know you're saying aliens, you know, there was a crash, we would say, there could be, but we don't know. Right now it's leaning this way so misinformation is different, it's more just about kind of like hard-headedness on that.

I think it's more reasonable to say, you know, you yours, whole kind of organization is is not to be malicious and debunking things but that that is your goal is is to disprove something no that's not at all.

That's absolutely not true. Well, you know, know that our organization looks at evidence for things that we ask

others, they have a claim of a paranormal activity. Great show it to us, show us the evidence where we don't do anything to debunk them, we simply that's really limiting though.

No, that's the thing.

I just feel like it's just,

no. Instead of missing well the purpose is to find the truth to find the truth and

say to the US Navy, who has come out and said, there are Unidentified Flying crafts that defy physics, if you don't know what they are. We don't know or physics or physics, why agree with that. That's why a lot of suppression in this area.

Watch us because we don't know what it is that's the point.

There's so many tapes that you see from like the Air Force where you see these, these flying objects.

Same thing of saying, you know, 5000 years ago that's Thunder you guys saw that Thunder it's got. We're just saying we don't know and to jump to

a conclusion. We've kind of exploded

but

yeah that's good.

Yeah, exactly. You want.

Exactly.

Exactly. exploded but just the content

you want yeah

did. Do you think I commuted to fucking know about aliens about spaceships, I can really see brain dead people just aren't even stupid

shit on the side of science and evidence I investigate claims of the paranormal with a group called the Center for inquiry investigations group and we have not found any evidence whatsoever of any sort of paranormal activity or aliens or any of that sort of thing and we've looked,

and you've been on the show before right.

I have been on the show before Yes, and the flat earth episode.

What was that experience like.

It was a great experience. My only comment was that we presented a lot of science and all of that was edited out we sort of ended up with interesting sound bites but not so much of the science.

On sorry.

The area 51 raid

the bad idea. Science has no content in that context.

You tried to store military facilities are going to have a bad time,

exactly, if they can white people's memories that have been working there for 20 years like like that. Then, what could they do to people that are trying to

storm a government so hold down.

I mean, I know it. I think it started as just like a kind of a joke Facebook, or something like that. Which is like okay that's kind of funny, but the fact that there is kind of a somewhat of a consensus where at least with skeptics that people who do believe in aliens are somewhat crazy or weird you know what I mean like something's a little off with them. Didn't so it was bad, not only just for people in general but also believers in UFOs and aliens and

I definitely don't believe it was necessarily a bad idea. I feel like it, put pressure on the government to be like hey there are a lot of people who are curious about what you're doing and if you have a whole facility of just like secrets, you can't help but explore that curiosity and see for yourself,

and I definitely agree with that. But it wasn't like we had a group of, you know,

did she make something that no dude,

well to do people that was, I guess more respected. It was just a bunch of kids, making jokes about clapping alien

cheeks, you know what I mean it's just like if there was, there was no

way it's constructed.

Yeah.

I feel like religion or science could be kind of limited and boxed, I have a Catholic background. So, in my family. Aliens aren't real. It's just human being. So growing up in that kind of environment. When I should have a different opinion from what I have now what

I believe humans were created by a higher power.

He said humans right. Okay.

I grew up as a Catholic until now, you know I've transitioned to be a Christian and all of that. So I do believe in God, I do believe that He created us, and I also believe he created everything else planet

nature, the galaxy

and beyond. If the question was, were we made by aliens I might not have stepped board higher power is a wider umbrella, or clearly very different from every other thing on this planet. And I think the intervention at some point, that might have facilitated that Terence McKenna thought it was mushrooms that we did psychedelic mushrooms and that facilitated evolution of consciousness and mushroom spores can survive in space too so maybe they are the aliens that helped us get to where we

are Oh guys. Guys, this guy's so

we are for sure, an evolutionary accident I mean I don't know why we develop these big brains but we did, I mean we've only been around kind of a couple hundred thousand years

yeah actually kind of

piggyback off of that where you know as us as animals, because that's basically what we are we're just really smart animals, you know, it's just we took a path of how we you

know we where we are today could easily be said with the

mushrooms possibly being part that's, that would be part of the evolution of what we are,

it does change brain chemistry so seven mushroom, it does but

that would be more toward a Lamarckian evolution, as opposed to a Darwinian evolution because Lamarck thought that if you just did pressure if you did forces that would change different generations and we're pretty sure that doesn't happen. I mean, many many generations of Jews have been circumcising their babies and yet every baby has been born with the foreskin after that so it's sort of not something you can force, apparently,

but when we talked about higher power. I don't even know if we just met but I guarantee, he wouldn't be passing yes aliens could have made us, you know, there could be civilizations that are 10s of thousands of years ahead. If they could have came in here and alter things that is 100% of possibility. But possibility and probability are two different things and I think that's really important because I can sit here all day and tell you yes we could all be in a simulation. That is statistically possible, but statistics up. I didn't pass yeah limits you I can operate our lives, we use statistics in everyday life and I think that's really important to not let it go when it comes to everything else when it comes to spiritual issues or evolution and just say, although I operate my entire life off statistics, I'm not going to do it here.

I think there is some science that like indicates like life on other planets or like, you know, going back to like ancient civilizations there is proof that like they believed in aliens, but for me personally I would say it's very spiritual base,

my views on this topic, are an important part of my identity.

It wouldn't make sense for me to not step forward considering the fact that I identify the star seed, so it's just

something about you awaken to your own divinity, and it's very personal to you. And I think we're all on different paths and everyone's valid in their own way

But absolutely, and when you have an experience with it, it's about it's verified, it's validated, but really it's not there.

It fascinates me You know, I've watched many documentaries many specials and things like that regarding this topic but it's not like I live and breathe it you

know, I'm not gonna dwell on it till it happens I'm not gonna worry about it too much, I'd love to be the first guy to, you know, see the craft land, go up, introduce myself you know get some alien technology take my photos with my iPhone up close selfies I mean I would love to do that. When you're ready,

yeah, right. I wasco is a facilitator of contract made in the Amazon,

I've had a friend do it and he basically said that from that he found Hinduism and reincarnation is real aliens aren't, it's all on Earth. So that's why it's interesting because it's like would you disagree with his statement that there are no other aliens it's just, Hinduism, and why would his trip be different than yours and non.

Well, I just consider the umbrella of aliens to be more like non human intelligences whether it's multi dimensional something people called

God, their argument is that they do drugs, right, then they see or feel things, and those things are the truth, and those things are real. And even though when they come back from that. Right. Those things are still real and still the truth. Everything else is just bias because they don't they didn't see it from that perspective, or angels

or alias is totally weird necessarily would devalue that he might have a different box or label.

I normally tell everyone I don't have beliefs, it's all based off statistics I'm not here to say 100% there are aliens just

statistically There are so I'm here to always just make the boundary between people who say 100% there are aliens and the people who say, 100% there aren't aliens and I don't think either of those are correct, but we have to look at it as a number situation and I think that's very important because we can't be using our emotion or our religion to determine whether there are aliens or not.

To me it unlocked an entire dimension of reality that I was denying beforehand. Oh no original dimension of consciousness once you take these compounds, you can experience things beyond yourself that science is gonna have a tough time with because science is in this box of the material world,

there's so many things in this world that we, we don't have any information on so almost kind of narcissistic in effect to say we're the only intelligent beings that live in this entire known universe. Oh,

yeah, no, I think what you want but aliens are real.

I definitely agree with what you were saying. There's just too many things in this world to just have one single. This is it. This is the true

idea before my spiritual awakening. I was just like you guys, 100%, and I was actually very atheist, someone like me who went through a spiritual awakening, and someone who is a star seed and just being like, okay, who am I, I'm not from here I could speak this other language, like I can do these things that like don't make any sense and having the kind of experiences that I've had is something that science can't explain to me and so I feel like just operating from a science base is kind of limiting yourself.

Yeah, and I think the misconception. A lot of people think that science is nothing more than some weird collection of facts and figures, it's not that at all it's a methodology by which you explore the world, explore the universe, but to give you an idea of how vast the universe says you could take

the smallest grain of dust painted blue, go out to the middle of the Pacific Ocean throw it in there and a year later, tell your friend, go find that grain of dust. That would be much easier to find than to find the earth. In this universe to know where to look for the earth. I mean, we are so small and insignificant construe a grain of dust in the Pacific Ocean.

I think we all can agree aliens probably do exist, there's a great chance for me 99.99, you know, percent chance here, it's just a fine line when we talk about, you know, psychedelics or inner you know realities because I think then we have to credit people with schizophrenia, we have to credit people with all types of disorders, to then not downplay what they believe in what they see and they see their mother walking in front of them and they see that. I think it's because I think it's going on that realm or that realm, then we can't discredit them either. That's true. We can't but just it would put us down that realm where we have to credit all of them, and so it's really important that for me is yes we can go down that road but I think that road didn't lead us to cars, hospitals, different things like that.

Yeah, thank you.

Star seed. Wow, that

was a trick. Have you ever been in contact with an alien.

Oh, she's okay.

Okay, gang chat.

 cough me for assistance. Pretty much, yeah. So, in order to
 go to hell.
 We have to pretty much do hellish things. Okay, so
 we got to start doing on calls and stuff. We got to start
 saying awesome
 stuff. And we got to start acting on wholesome.
 Hey, Chuck.
 We can't go to church anymore.
 If we go to church.
 I don't think we'll go to hell. So we need to go.
 Become a separate donkey I don't think that's the way
 to do it.
 Thank you for talking about how we need to go to hell,
 and how to
 kill more people yeah I don't know, truly more people
 just kind of do anything. Thank you. Well, I don't know, but

 I can't shoot myself What am I doing.
 First things first.
 That's so weird sounds like a male version of me.

03:31:17

cuz then, I don't know, for me at least when I had my whis-
 pers on I was always like, like, it takes me out of the groove
 of what I'm talking about cuz it immediately pops up right.

I know exactly what you're talking about when people
 say like, oh can you check DMS on discord and like, I will
 check it after streaming like no disrespect to you but I just
 want to focus on streaming as.

Yeah. Yeah.

Yes. Is there like a certain cringy interaction if you can
 recall that you've had either in chat or like IRL streaming at
 a convention, with people from Twitch,

or just okay I got a really weird message one time, I don't
 know if like if it was a viewer or something or who it was.
 And it wasn't at a convention but I remember I got a DM
 from someone and they literally said, Wow, you look really
 good tonight, you might want to check in your room.

And I was like, What and they're like yeah I'm in your
 room, and I was like, I got so
 scared and all I could think of was like goosebumps
 from

Trump's books.

Yeah, we're really, really, really little I'm like this is seems
 like a book story like I'm gonna go in as like a monster in
 there, but obviously

there was like no one there but it was just that was defi-
 nitely the most
 endangered I

think I've ever felt from being on any type of social media.
Yeah, for sure.

Like for me the worst time. When I got actually swatted. That was literally terrifying I couldn't, I couldn't really understand why. But yeah, I don't really like talking about it too much but that was definitely the most scary and real feeling that I've ever had.

Yes, I know it's always better not to talk about it like if it happened. Yeah, because I know like it happened to me once too and so yeah and not really we don't really have swatting in Sweden thing. I was like TV when I look in my apartment like everything is fine and they went inside you know what happened afterwards like a creepy guy, no stalker guy whatever in the themes was like, Who is the man in your, in your room because oh my god like I angled the camera down and they saw like a piece was slipping didn't tell anyone because we stopped to tell

people where to work.

And they think that you like are giving an attention.

Right. I do feel like this swatting has gotten like I feel like 2014 2015 whenever it was like Phantom Lord and that derp trolling and Lizard Squad.

The swatting I feel like was the worst then I

feel like since that one kid got you guys know that situation where that man in Kansas was shot and killed because of bad SWAT

and that was the same guy that swatted me actually shut up. Yeah. Ah, yeah. What happened to this guy,

it was just like a basically a troll who just swatted like streamers

is that he, it's kind of hard to explain but he was playing games with some other person and said like, I'm gonna SWAT you and he sent him to a different address and killed an innocent man.

I feel like I'm gonna cry. I don't want to talk. Okay, okay.

Yeah. Um, well I remember when I went, they went to twitchcon.

Last time, and they, a guy came up to me and he's like, Hi candy Nice to meet you and he kissed me like on the cheek sounds like for you. But then when I told the story to stream they were like a negative culture,

yeah yeah like maybe okay yeah

so he's probably for me was like so creepy I was streaming at the time and I was like, this was me after a it's not okay.

Yeah, that some people do that, like in Europe, especially, it's like, Yeah, but they told me they told me like that was crazy for me.

I feel bad afterwards but

so hard guys like hearing this right now he's like you thought it was creepy.

Like, pretty respectable for the most part. Yeah.

Everybody's been so

let's say like when I went to twitchcon, I didn't have like any creepy experiences like there was maybe a few people that I met that were like, kind of, socially awkward or whatever, but I never felt like I was like unsafe or anything like that which was, I think, write a really good thing about like being in California, because I've been to other, just like on vacation and stuff and I felt like unsafety in certain places, but at twitchcon I feel like just because we had all of that in common. I don't know I never felt

twitchcon I feel like in person they're really nice like you might get a lot of damage online but even the ones who have ever been banned on my channel, they don't talk shit to me in real life they want to like, they all want to picture with Amira

like. Can you

wait but then, but then do you see it online after and then like he'll put the speech in right then it's like,

no. Okay. No, I don't. I guess the only like weird thing that's happened at twitchcon was like last year, I've had a security guard past few years now just because I have too many grades of people online. But, um, like there was somebody who bought a badge and said find amaranth, and they like checked in with that badge. And so, the staff had to call my security person and I was like allowed to leave for like a certain number of hours. Like, I was allowed like like separate from the security guard I'd like stay within his sight for the rest of that day, just to make sure that they weren't gonna come up and start some shit with me, you know.

Yeah, see I always wondered about like, like really big streamers like you and like Pokemon and like all those people like do you guys always

like she has security guards and stuff. She does yeah that's what I would assume,

because I even when I saw,

because I saw you at twitchcon too. And I think you were streaming. And like I can

talk to you for a little bit and whatever. Yeah, but I just remember it was like super easy like we were just on like the balcony thingy you know up at the top yeah where everyone's drinking. And I just remember being like wow I I assumed that there would just be like a giant like, like, oh of people around you be like

no one else is allowed to

like come near here. No, the people who travel with me like when the security guard if there's not like a threat, he thinks back like a few feet. So he's not like too overbearing people want to come up in chat or like when I have my mods with me, or like the different viewers if they want to travel around with me for the day at the con, they don't crowd me, they're not like thirsty boys like everyone tries to make them out to be there just like here I'll hold that for you. Haha, they're like laughing at the stream as I'm

streaming it's like a very chill, it's like people make, make it a bigger deal than that is really just like all friends hanging out at a convention that people always like her orbiter isn't like they actually don't circle around me.

I agree. I mean for the first like three years at twitchcon I stayed with my subscribers and like my friends like, like, I don't know, maybe I maybe it's a bit naive, but I do really think of them as my friends.

I do too, you know. Like I talk to them every day, you know, people think that I have like, I have like real life friends versus online friends like no, my life is online, I don't actually don't hang out with people in person. Yeah.

Like my most of my social interaction is at conventions, when it's not online.

I don't know I'm not, I'm not like, I decided like last year that I was. I wanted to be able to have up like be able to be like, be able to socialize in real life too so I have really yeah really trying. Yeah, whenever I whenever I'm not.

I'm trying not to be online, like when I'm not streaming in real life,

where I was always gonna have free time.

So, but then I feel like in Sweden if you talk about like creepy interactions and stuff in Sweden, we have like a thing that's like jumped in Oregon, which is like a, it's a law or like a rule people follow. Like if if you're not supposed to be better than someone like it's a weird thing. But people I meet in Sweden I feel like the only place people have been rude to me is in Sweden, and that's because they think they think that I think I'm better than them,

because I'm

online, but they come up to me and they say like you cessful and I'm like,

yeah, that actually makes sense it's great since it's more like a jealousy thing, like you know, but then I feel like when you, when you interact with people from other cultures.

You're like a, like an exotic like oh this is cool it's like an experience for them to be around you.

So, we don't have people everywhere else. So, so nice.

Yeah, like more like a spectacle like oh this girl is bored and then she's online that's cool, like they're just like nicer about it because it to them that you're not like one of them, so they're not getting that jealousy as often as I think people around the country would be.

That makes sense. Yeah. Yeah.

So, has becoming a streamer though like on social media in general affected the way the opposite sex approaches you like boys do they approach you differently. Sandy probably can speak of this more than the rest of us and she has bug buddies. Oh yeah.

Well yeah, you realize people always. That's the thing with also with junk dog and they're like yeah but like when people come up to me in my town now, it's always like, oh, you're just kidding, we're like of course I know who you are.

Before I remember one guy who wants to be and it was like Mr. Nice to meet you like your candle light now like can we take a picture and he was probably gonna show his friends, like, Hi Mister, you know,

he's like, you're a fighter is good to have me It's great. I guess what, some guys do that. I've known of like my like people who have met me, and it's like I told my mom about you and now she thinks for dating. I'm like, No, like I believe it. No.

I try to know people but I guess that's even when I was done there was a guy who at my friend was like What do you have sex with him right I was like, why did he say that.

So I guess people do that, I try to think the best of people but I.

Yeah, it's always good to try to do that. Yeah, so it hasn't made like guys want to date you for the wrong reasons. Now, do they like what part of your clout. Okay. Any person.

I've never I think this is the thing I never, I never notice other people's attention like I noticed when people come up and they they act weird and they know me from the internet, but I don't really see this flirting. If I want the guy, it's always a nice guy and I don't that I'm like blinded because I already know it so I don't think I can really answer that. Yeah.

Yeah. For me, I guess since I don't really talk to you guys in person as much, for me it's always been like online if I went to school with somebody. And then at the time in school I was not popular at all. It was more like anti popular, so it didn't fit in. This was before nerds. Cool. Now it's all like, Oh yeah, nerd being a nerd is cool now for the zoom. But I didn't send him with alerts, because I didn't look like a nerd, and like I was already doing modeling in high school, but I was also like a big combo nerd so those preppy popular girls didn't like me either. So I was like, anti popular like know where to go. And now the guys on Facebook are always hitting me up like we went to school together, and like trying to show me their dick pics and stuff and I'm like, you know, like you're trying to like ask me out and then like they'll just like at first, it'll seem nice and like yeah hey we went to school together that's cool What are you up to and I don't respond and they just send their dick pic you know like did you like it, like,

oh my god. There it is.

No, that's not happened to me. I don't know,

I, I met my husband online, so I, um, we were friends through a friend of his, his best friend in real life played MapleStory, and I made her starfield. So we were just friends. This was all before I started streaming so we knew each other before I started streaming but we both started up serious relationships, and the same time and I was streaming, at this point, but like, he didn't pay attention to stream like he doesn't have social media at all he's just not involved in that world he's very much a normie. Yeah. But yeah, um,

yeah we met online and I actually came down for twitchcon 2016. But before I came, he's like, hey, let's just hang out. And we spent the day together and yeah, it was, we wait where was he from. He's from California.

So yeah, he was okay so did you guys did you fly down to go meet him Are

we down to twitchcon. Okay, so you met him. I didn't meet him at twitchcon, I met him like a couple days before because he was just like oh we can hang out before since you're down here already. And then yeah so that was the first time I met in person and got we've,

we've been together ever since. Yeah, I feel like being online like people are pretty understanding that I'm married has definitely made a lot of the cranky people like, not as a parent, really. Yeah.

Take it as a challenge. Yeah, no, I feel like a lot of the people that come to my stream are like,

Hey, where's Jay Today like I wonder, they like have built up like a relationship with Him as well, because they, they, I mean I feel he's a really great guy and I feel like a lot of them think he has to So, yeah, my stream is kind of built like a relationship around.

Yeah, that's really good.

So I know that a lot of people like when they get into relationships

or married or whatever it be like their viewers don't support it right. Yeah, well,

I can feel like you that way. I understand those people because i remember when i or i must have been.

And I remember, long time ago, anyone any guy that watched especially like.

I remember he was together with some girls. And I was like, Who is that girl and why is it together with her and I

didn't watch it.

I had a girlfriend. I understand I understand. Some people. I don't I don't consider myself briefie I call them blushes offended people don't want to watch anymore but I feel like the people that felt like, oh, like, I can take her like

have definitely weeded out a little bit. Yeah. She's like a good thing. Yeah, definitely.

It's probably more.

Yeah, I feel like more people come for the better reasons of like just becoming friends, and a lot of the friends that I have become friends, my husband as well so kind of just like really cool community, I guess.

That's actually really nice yeah that's super wholesome.

Okay, so I guess like how twitches changed like my dating life. I don't know like I feel like it's a bit in escalating sometimes for, I don't, I don't know and I don't mean it to sound like I don't even know. I could definitely see like,

I feel like

I feel like there's only like a certain type of man that can be comfortable dating, you know, and I don't think it's a beta man I would say that it's actually a more Alpha Man who could be more comfortable with, you know, like having a woman in the spotlight but I feel like men are used to. I don't know like being. I don't know if he's like on my stream I try to be funny, right, like sometimes I feel like it's like, oh, you know

like the guy's supposed to be funny. You know what I mean. Yeah, I don't know I'm sorry I'm just feeling.

So ADHD, I understand what you mean because I feel like people come to my stream they don't, they're not there to like,

I'm not a comedian, in any way, shape or form I'm just like, I have offered up to like they can have that would be cool.

Yeah.

Yeah. Now maybe emasculate is the word for it but I don't know and then, you

know, the money thing, like, you know, I think.

Sometimes it's

like I would be the breadwinner I feel like it was like relationships right.

Yeah, right. And I feel like that's me Do you think that the boys are intimidated by it.

Yeah, maybe that's like a better word. Yeah, yeah, yeah. Would you

okay so for people who are single. Would you feel comfortable with dating, like a stream.

Um, I wouldn't.

I wouldn't have issues with it like on a relationship basis I would just change that I'm there for the views, you know,

yeah. Yeah, I know,

but would you feel uncomfortable. I'm saying, Would you feel uncomfortable if they were like

a streamer who is always like, like, I'm single like for the boys

kind of streamer, but guys are in a relationship as well but they're, you know, constantly getting approached by females all the time.

Oh no, I wouldn't I would feel bad about that I think because I know that the first part of the job, it's kind of like if you're dating or act or something you can't expect me not to interact with them anymore. Yeah, right.

Yeah, I guess on a more serious note, like I would totally if I were dating another popular guy streamer and we were like really trying to take

our relationship seriously

I totally wouldn't care if we just didn't make it public at all.

Right, you know.

Yeah, I wouldn't.

I feel like I don't, because I don't want to.

I wouldn't want to like when

we were both like the same level like smaller but that it was very weird like in that level, we were exhausted.

Like, it was, it was like, also, like,

what they like my stream probably got to hear all the bad things about human day that the hero thinks about me, it's not good. That's what I was thinking to you. If you're

dating someone who is, you know, higher or higher, whatever audience right if you guys have a bad breakup, for example, you right that's like a lot of hate that actually get especially if you, if they're like significantly bigger than you right

yeah true. Yeah, it's not about that so i

i feel like i don't want the attention like this shaping thing also i'm not i like the shipping thing is great if you

want to do it. But I don't want to be part of it like

I really just want.

03:51:57

awful, awful Look at that little mustache, like 1600, I'm like 17 I think 18. No, I must have been 18, or 17 I have to.

Yeah, the hair too. I used to think I actually I'll tell you what I didn't even think I looked over long I knew I looked like shit, but I was like it was. I was like, at that point I was writing a blog for a while. What's up,

look he likes looking like shit.

Yeah, but it didn't pop amiss. The problem is, is that no matter what I have looked like, no matter how dumb I've dressed.

No matter how dumb I dressed, no matter how psycho I've acted. The one sort of thing that will make you dress different is if girls are like you look stupid, but they kept agreeing to my demands

until it's their fault. Well like even when I was dressed like that people like y'all have sex with you. It's like, it's not like you got to start putting your foot down, you got to put your foot down. You can't let them get away with that kind of shit.

You're just bragging now.

Yes. Well no, I'm not even No I'm not. It's all the same reason I've never become an athlete. It's ruined my life. I've never become an athlete, I've never stopped smoking, and I've never done anything that would make me acceptable because they'll just fall for anything.

What's the donkey photo.

Well I showed a photo earlier about a bad hair cut I told her saying I never get my hair cut by a lady again idon't know many girls that worked in Edo but I knew a girl at work the Ito was like I'll cut your hair for very cheap. They couldn't afford a haircut, like a real barber or whatever is like \$40 and went to her and she gave me a free haircut I think it because she was like practicing on guys. It was awful. It was you know like the short bangs that like girls, girls get like a girl short bangs or like here.

Like tote bags.

No no no, those are like further down I think these are like a short ego bank she gave me the male equivalent. No, no I didn't really have demos, what are these bangs.

That's not what a bang.

How are these not bad. This is that way. That's not how it works, man. Demet is bangs just a female trait. So yeah,

I did not know that.

Any show me the photo. Oh, it's okay. It's, I have a bunch because it was from Cuba I took like I took apparently I took 800 pictures, they're so fucking. What

is it funny.

It's not a great shot, well there's like a lot, you can't really see my hair and a lot of it because I wore a half.

The What a beautiful fucking country, my God, I look. Oh, very sweaty.

Like that. Okay, I'll find a different one.

One more I'll follow without a half years taking prank photos.

Last in a cig reading the Tim drum, very bad haircut on me. That that is beautiful city Trinidad Trinidad and Cuba.

It was pretty bad.

It was just, it was it was it was tough. I gotta I gotta take me along with these guys. I didn't think it was that bad did you guys think it was that bad.

Yeah, I'm.

miss me. How could you miss me I'm right here.

Ah, yes I know sorry low energy.

I'm just hungry. I'm sorry.

Well clown skills, when I was a clown I was really good.

I'm like, routines, like comedy routines and balloon animals, I was pretty good at face painting, obviously. And, um, I was, I was really good at taking the pie in the face. Which like other constant want to do. Because they were vain. But I was not because I'm very silly. Um, I'm. What am I thinking for dinner I have no idea. I don't really feel like making like a big thing.

Yes, I've been to Paris, a couple times.

What did I get from my birthday I didn't really get anything for my birthday actually

a friend sent me something that I don't want to say, and my neighbor, like I mentioned brought tequila, which was nice. Am I in New York City no not in New York City.

Um,

do you do my main I don't do my main my mom was

a mime, which was funny. In high school, and she went on Luxembourg television and was a mime and Luxembourg television, very strange. I don't know why I'm telling you guys that.

Did I go to Cornwall I did not go to Cornwall but my mom did.

Um,

I don't know if Hillary Clinton is going to be the nominee. I think it would be very funny, but I don't think it's gonna happen I kind of think they're gonna. I think they're gonna have a really hard time replacing him like doing the switch-eroo, but maybe they'll just do it. Maybe they really don't care, I don't know. It seems odd that they would replace him with someone who didn't run in the primary I'll say that doesn't seem like. Yes, I mean because it seems like there's probably. It seems like insane people want. Andrew Cuomo, which is totally wild is like done the worst job ever. But

I'm

not going to be the VP No.

Um, do I think pencils will be the VP for Trump I do, why would they replace them. I

could see it happening but I think it's too early for that. All right, me I think it's just like too late for that I think we were to see more signs of it because I At first I thought. The reason was putting charger Corona shit is so Pence could take the blame which I still think kind of is true. But Trump, oh is the Corrado stuff so much now because of his press conferences that it does seem like that's the case anymore. So,

why he, I mean it seems like Pence is good for the evangelical vote.

Yeah, that's, that's like,

So I don't know why you would. But,

um,

yeah I don't know who's gonna be SVP but it's probably gonna be some fucking bozo we've never heard of, it's

gonna be like a tin came but with today's. You know what I mean,

to be called a shark, or whatever.

Yeah, it could be Whitmer they I don't know if he could do it right now cuz like. Actually I don't know I don't know about much about Michigan shit so maybe, maybe they could but I feel like it's like,

I don't know, it's gonna be one of those dumb asses.

It'll probably you know it'll probably be, I think it could be a me because they've worked together in the senate before.

Yeah,

so relationship, but Biden might want just like a pretty thing that doesn't talk. And then it would be what Mark Johnson is with

any plans on doing. It's not going to be Harris don't beat Dumbo

got Tommy Harris.

Couldn't even campaign.

Be so sick of he picked Kamala sister. I love that Kamala sister fucked it up for him. Yeah,

I know. Everyone's saying Kamala or Warren or Stacey.

What's her name's Jamie. No way. She's John Abrams know what

you don't know anything about politics,

Abraham is not going to be VPA.

It's Stacey Abrams people put out all these stories to boost her profile, but she's not gonna be BP she quit. She didn't even win her fucking like it's like it's like data or anything. Yeah.

Just, just nobody but

what I'm saying is like Maya, the Maya fucking it up for sisters so fucking funny

wasn't just mine. I mean Kamala is pretty charmless I have to say,

ya know, I mean, obviously there's like Kamala fail I mean she just wasn't she wasn't a hit or whatever, like, you know, she can have her viral clap back at, you know, appointing whatever judge but like she like she really take off, and I think they were probably, I mean, one would assume betting on sort of just like making really big inroads with a black, you know voting base, very quickly, which did not happen. But also her sister I mean the thing is like her sister was basically like co campaign manager but unofficial. And so her sister was making all these moves and like, if you don't have good political instincts. I mean, it's at the top you're fucked. So I do I also just do like I think the Kamala, like, I think people point painting her as a cop too. I don't think that had like a huge impact on like regular voters, but I think that had like an impact on the discourse or whatever that regular voters by read.

Well, the media. Yeah, sir. Take all their cues from what we call the discourse,

but uh,
wasn't her dad a socialist yeah her dad is a Marxist academic.

Yeah. Is he still alive.
Yeah. That's so funny. I really do wonder how he he thinks that he really didn't like the way that Kamala spoke about Jamaican heritage.

Yes. Yeah.
Well as you guys know I'm pretty involved in the A das movement

was I was up with that that like came out of nowhere, the eight O's thing

ADLs ADLs Yeah, that was like really, like, I had never encountered it before and then all of a sudden it was everywhere, then it kind of went away again.

Yeah.

Is it astroturf, it felt like, weird to me, like it was like all, I don't know,

it was all about reparations wasn't it.

Yes,

in no but there was like it was like, I mean, part of it was yeah but like it really like. I mean, it was in the spotlight for a second because the Kamala stuff, and then sort of dropped out. Yeah I know it's been around for a while but like it was like, it became like a thing.

Yeah. Yeah, no, it became like a big.

Yeah, like it was like,

Yeah, I went away which I don't know.

I mean,

fine with me. Do whatever you want free country baby. that's so free when you think about it, brother are slaves to the machine.

You want to tell people what we use that for the in the show.

Yeah, so our live show is, we have a large projector in the rear. Me and Liz.

There's a few props. But we, we have a very elaborate set, let me know.

First of all, let me say, Oh, do you want to speak on the set.

No, no, I'll show them the set because we're not going to use it again, that specific one.

Yeah, okay. I want everyone to know who do you think made the set, and all the props

are dude I'm was.

You didn't make.

I also you just designed the set. I also helped make this ad.

Set did you make. Are you fucking kidding me. I helped you make every single part of it.

Remember this.

Oh yeah.

In LA.

Yeah. That was a fun day I mean I mean,
the temple, and the plane and the painting. And
I made the painting. I was at your house with you, making the painting.

Don't you no no don't you do this revisionist history, a lot, Adolf Hitler, to me, you can't really see all the lights are all on, so it's like not that cool looking. But imagine this was very cool lighting,

it's gonna run without it.

I have this.

Oh yeah, that's the one that doesn't look at it looks so much better with the lights off this looks so bad. I know with the

lights off it looks really fucking cool. I'm trying to figure it out I must have one from like our San Francisco show or something.

We posted on Twitter thing

yeah but that was like

six months ago what was that it was like four or five months ago. So that's a that's

doing it a newer two months ago. Mm hmm.

I'm like, Where the fuck is our. Maybe I can, like, Huh,

I should probably collect these all in one place, huh.

Yeah. Oh, here's the San Francisco show one.

Oh see that looks good.

Wait, can you focus on that.

There it is.

That was a young Chomsky was in the temple there, we put them outside of it now but

you see we got. Well,

yeah, it was fucking cool that show was so fun. I mean all the shows were fun but that show was really fun so we had never done it before.

Yeah, the only one a little different vibe. It was fun though.

Yeah, la one was really the second one we were all

fucking tired and shit was fun shit. I like
doing tonight we could have fucked that one too.

Oh I said some very weird shit, remember someone got mad at me for it, nevermind. But someone got mad at me for saying a certain word. Yeah, they're like my cousin's like that I'm like, I like that.

But it makes sense. In a nutshell,
hold on, where am I going here.

Focus on me baby. Focus on me. Like, like mind control.
Don't be weird.

Fucking focusing. Now you're gonna complain look at this I'm all blurry.

You are.

Well, I don't know, there we go,

that's magic baby yeah we played in Milan and La someone says my favorite venue like that I said well we did two shows it's Abdullah

is brace autistic no but I've got I'll I read my fucking psycho porn earlier thing. I'm very. Not, not autistic but I have a thing that that mimics the some of the symptoms of autism. So, again, I'm under the umbrella. Yes,

who was cool had a good time. That was a that was a fun little fun

little joy you know they're like, I mean when I lived in LA.

I can see why they were fucking, not to sound crap. They were so fucking babes.

Oh yeah for the big part tonight for the big party now, there was like a DJ night after our show I think I've mentioned it before that was

crazy. Like,

I moved to LA. I'll lose my mind I would hate everybody.
But I still want to move it, not to that. Like,

I loved I just had such a good time when we were there.

I know, but I like it, I miss my friends, a lot.

Do you think I'll ever move.

Yes. You're doing all of them, I talked to an astrologer recently said I was gonna be moving within the next year. Do we have to move together we will use one of us moves.

I don't know where would you move.

No, I go.

Yes. But I want to move anywhere that's like snowing.

I don't want to move to shiver city freeze

my Mac but I have a feeling that I mean the astrologer told me,

who I talked to her.

I don't really love the Bay Area. You know what I mean.

Yeah, I mean, fuck. I've never lived more than 20 miles from the place I am sitting right now.

You know,

I'm 30 years old.

Dude, so many of my friends, including you have moved away gone and had like a whole life and career and like 1012 years other places, and now they're back, and I'm like, Oh yeah, no, it's it's been cool, it's great to see you guys again. Yeah.

Can I talk to you. I want to move to Portland. No, no I don't like.

I like it. Okay.

Absolutely not, not my scene.

I'm just like I want to have some more snow, it was like, why don't you move the snowiest place in the world. I know it's snowing there just pull

like rain. I like fog and rain and forest.

I'm telling you gotta just move to Greece fate will be key.

I tactically elected MP and Syriza.

No, you

know, but you guys you know I'm not a big fan of the Pacific Northwest it freaks me out.

04:12:37

Are you doing nothing.

I'm the parking lot, I couldn't see the rod through the black side of the front compressor.

Isn't the outside temperature thing that says negative Sunday tours is the inside temperature.

Yeah, I would look into that because it's probably your, your. Can you manually turn it to like glow and it worked fine AC wise, because it sounds like it's trying to adjust for outside temperatures reading your own so it's like it's freezing out there, it blows all hot air you

buy an AC compressor.

You need a flashlight.

It's right up there.

Yeah, let's do this way. Yeah, for sure.

Someone who knows absolutely nothing about in the slightest about cars, what should you learn.

Check your fluids.

Periodically,

preferably you fill up with gas but once a month.

Then maybe start looking at things watching videos about this.

Just start.

Well, unless you see it doesn't go down again start with like every week, make sure my whole level stays the same. If it does, then, you know, you start procrastinating more, but just try to be mindful of it I would say when someone said the latest once every two months at the latest. And it's not hard to check your oil, you go out there you pop the hood you pull the dipstick you wipe it off you stick it back in, you pull it back out and you say, cool, and you shut everything and you go home.

Check the tire pressure.

It'll be the yellow one.

Pop your hood.

Come here, pull this out. Wipe it off.

Wipe it off.

Wipe it off.

Wipe it just the tip a little bit here like this. Then you take it, put it back in the hole descended into there. Gently don't force it. It should be well lubed. Make sure it's all the way firmly implanted then gently pull it back down. Hold it here so that we don't go whipping oil everywhere. And

if you're unsure what it says to you, there's typically a low mark.

Typically, like an elk, or the two holes, or there's like hatch marks or something like that, or there's like safe and not safe or something, then it'll give you some sort of indication as to where the oil is.

Then you nearly put it back in,

like different for instances Gigi I will look different.

I mean I wasn't really being a teacher I was being a smartass if anything. This is how you check your check you did stick.

Chicken tire tread.

It's okay. I understand, I'm being a smartass I am teaching at the same time.

dipstick.

Some cars don't have dipsticks. Some of you got a check from inside. So let's see how much oil this car has, let's see how much flew out of it when it Bullock broke through the block.

Oh baby,

you guys going on a date.

So see here.

You do not want to overfill it you want it to be right in the middle. I mean, preferably on the high side in the middle but you want it to be in this area for instance, like see this one says max and min. So you would like it to be somewhere in this area. But it's up here. If it's like here ish

or up to this little notch, that's fine, As long as it's not like up here. This has

exactly nothing

TSB stands for tech service bulletin for anybody that doesn't know. Which means that internally in a lot of your data stuff that I search. Like, for instance, like in this 2013 facade sedan. I will show you all better. This is one of our service manuals. I can go here to tsps. And it gives me a list of all the tsps that are out on my car. Everything from manual manual transmission noise diagnosing gives you a little list it gives you some information.

Or we can even go as far as looking for recall.

Like recall watercolor corrosion.

00 series vehicle noncompliance.

Wait, 2018

Takata airbags. You know, you built in claymores.

Everybody gets a free to play more with their car. Thank you. out a

message,

which is Discord.

What are they now saying,

and of course you ever have any questions when I'm not streaming, feel free to message me on discord or ask in discord there are people that like the free discord

oil free GTI Absolutely.

But mostly your dipsticks, you should be able to read in your manual, your car comes with a manual. If you do not have the manual to your car you shouldn't be able to locate one on the internet. It is a place that we go to find things that are lost. Except my sanity. I can't find that on the internet. I tried didn't work. I found that the bottom of the bottle. Just kidding.

So yeah, you can look at your manual should tell you how to check your oil for your specific car.

That's good, that's good that's the whole point. Hey

vark are 58. Oh, people be like history for 58 months Yes Yes, I have.

I don't know what that bottle is is that nitrus.

Speaking of bottom of the bottle what's my wife up to still asleep.

We'll get hit for that later at all.

Was it nice.

I love when people teach me things versus reading.

What's up with overheat for murder lately like there's something going on but I'm not aware of because I don't watch any of that. Once I get home. It was something my wife mentioned to, like, once I get home I really don't care about Twitch, like the last thing I think about is twitch because I go home and I'm like I'm gonna watch some YouTube, like often play games. I don't want to stream. I don't want to worry about other people's streams either. What's my best dead joke. I turned my walks into a bar and asked the bartender here.

I do have a YouTube with some repair stuff.

No I don't watch TV I watch Netflix or YouTube I said, or are Disney plus or Hulu or. I'm watching enterprise right now. I turn on some enterprise I load up one of my games I want to play I drink some alcohol or whatever, or mostly wine, but sit there and sip and play games. Fine. No I don't interact with the TV, I interact with the game I'm playing. It's just background noise so that way I can watch TV or watch you know a TV show and. And me, it depends on what I feel like I'm in the mood for, sometimes I want to watch Star Trek sometimes I want to trucking YouTube videos about Carper. I mean I watch a lot of South Main auto. I think I'm watching most of his videos because I would do that I would just load up my game whatever game I'm playing at the time, arc imperii on Scrap Mechanic, whatever, and just listen to them talk and play the game. It's super relaxing. I mean. Oh cool.

Ya know like South Main question Oh, sure.

Are you gonna be using Bay five. Okay. Please. Hold on. Jesus

can hate that song, god damn

so sick of hearing it on the TV or on the radio.

Oh my god he listens to the radio anymore. Hold on.

I got tricked this cough or Dr. Ill.

Something something terrible. And it better not be that one.

That's a good question

word of mouth would buy me the best one.

But yeah, mostly, um, I don't interact on streams on twitch until I get home because I just don't want to interact with anybody.

I just want to like be by myself and quiet for a while.

Fucking courses the hard one.

When I tore my other hand up on yesterday,

or Friday

lightbulbs smoked. Literally. I guess I

shut it off for it right now.

Right, like you know,

I just take off my gloves cuz all I'm gonna do is tear him up.

These are the least aren't totally torn up yet so

I got the one out Friday, took me a while. He'll know he'll to the No.

Like the bulbs too big.

What the chickens. This is Pickens yeah I'm taking out the DRL bulb.

Oh, I see. It melted it. Nice. There we go. The rest of it. Beautiful.

Broken bulb,

not too good to kemosabe, not too good for a minute. This wouldn't fit out of the hole. Good.

Not too good

parts of the bowl they're still in there,

not really much I can do about that though. Ball.

One second.

Nikolaev acquired
this back in.

Hey, it works.

I know I couldn't because of the headlights too deep in there. Yeah.

Jesus Christ. This is the pain in the dick one,
because this headlight doesn't want to stay in there either.

And then had like fucking hell man, every fucking light came out.

That's not good. And we'll go back in there. Because it melted.

Very good car so it's great. They're great. They're amazing. I'm taking my allergy meds. I know this is all pissed off.

Life's not simple. Hold on.

You know, that's probably gonna be my fucking luck, I guarantee you, like my surgery date whenever that is I forgot when it's gonna come up, and then I'm gonna fucking get it, or something like that. I'm gonna be sick for some reason they will be able to do the surgery and they will have to postpone it another.

04:35:03

Oh yeah I'm about to do some work right now tire scraper
How you doing, we bought it, we bought to just do a quick
file on our chain here and I'll get some bunch of stuff done
today guys, I promise. Okay,

give the people what they want to see.

Right. Progress.

We shall make progress.

Today is a beautiful day. Thank you guys for being hanging out.

I got some crazy, crazy logs that I got to take care of today, it's, it's not gonna be good.

Oh,

going on here this file, getting toned up.

Oh, no way. The chain is in the peel box first off now it's gone. breno walking all the way out here for No, no, no, no. Doing that trust me. I'll hop in. I'll hop the industry. Hi got your new job it.

Just so you guys know,

I am 3040, plus minutes hiking and free was the hot hiking out here to bring me that chain, she would have to bring my two daughters, my two daughters, walking through here they're pretty badass Don't get me wrong in their country gals seven and 981 just turned seven two days ago so they're pretty badass kids and they are good at this stuff, but they're still. They're still slick rocks up and overs around across the creek, there's still a lot of variables, David take them a probably an hour and a half to get out here by with the kids probably hour and 20 minutes. Oh, I, I have to do that in my other phone, um, can you just send it. Can you copy what he said and send it to my twitch.

Sorry, the phone's off charging. What's up the yo ma with the good to sell the Faster How was your daughter's birthday party. This past weekend. Absolutely amazing and awesome. You guys came in. Oh god.

Thank you for that.

Again, and welcome back Dr. bester.

I'm just trying to get a quick sharpening on it okay guys.

This one got a little,

a little more work on it and I wanted. Right. Yeah.

Bear will leave me out here by myself. He sticks right by me.

So I promised I would do nothing. Off stream, everything I'm doing is on stream, except the firewood cutting. So I was cutting firewood off streams. And you know pretty much every time I'm getting opportunity or feel like doing something myself,

cutting firewood a stack of firewood over there, you know,
that's always gonna have to be done.

No, you can't get caught here.

There's, there's only one way to get in. It's by foot. You can't
get no helicopters no vehicles nothing you
gotta walk in. We are here with some in some gnarly and
relentless terrain of the rain forest for the jungle.

Oh yeah, so much rain.

Okay, thank you so much. I'll check that in a second wolf.

There's going upside of the hill there.

I'll check it in a second here. Tom bought the other pole.

So if you guys are just tuning in, don't be shy to say hi,
we have an absolutely amazing community base. Thank
you again. Katie for that host jedec for so the host me for
the get this up, I think you guys know if i i don't know if Ka-
tie's in here or not, if she did. Just add things to do and then,
you know, of course, why things to do. I just really wanted
to say thank you. All right, that was sides done. Be careful. I
did this the

other day in a

quick Hurry and my hand slipped off. And I was facing
the aisle doing the other thing my hand slipped off and ripped
a good chunk of my skin out. So,

I do not own the land.

How does this work. Who do you buy from, he's like
oh you know, I want to do this. So this is federal land. Zero
land management, it's actually public land. So, you can't
live out here permanently. Alright.

That's something

you can't do.

But you can most certainly take anything that's on the
ground you can't cut trees down.

That's a federal offense. So unfortunately

I can't go cut a bunch of trees down, ah, Bush I would
love to do that and then live out here. It can't, can't. So, if

it's on the ground is fair game, a fair game. But like I said
maintenance on this on your in your sauce sharpening your,
your tools keeping your axis sharp, your chain,

chain,

all made maintenance

important. So, I know, I know you guys are like just
build something already brother. Don't worry about typos
here, I see spoon. Rather, if you want to. I'm telling you,
those typos safety. Sir, gloves, I know I can't find my gloves
or so right.

Yeah, I was just talking about as a man

I don't know why I threw my gloves that oh there's one.

But it doesn't matter this is my,

my left hand I need my right hand glove right hand is the
one I'm gonna end up putting my hand on.

Get it done today 30 I will. How you doing, by the way,
he's gone.

Okay, so

two days ago, I would have spent the day with my
daughter. I doubt. And I

was obviously my food in the

creek down there to stay that's what I call my refrigerator
what I'm using to keep my food cold. Come back out.
And some of it was kind of messed up. So I got a critter out
here. We have ourselves a critter some sort.

Yeah. Yeah, absolutely. Oh yeah, it's it anybody could
be having their vacation out here I can't tell him that other-
wise, it's a, it's definitely gonna be something that somebody
is seeing go oh shit i think we just walked on somebody's
land is what they're gonna think, but we're out here. There
are four or five 800, I don't know how many hundreds, hun-
dreds in the four or 500 thousands of acres surrounded me.
So we out here. We're in a very peculiar area as well, because
I got to go where the towers allow me. And unfortunately,
i. Well fortunately unfortunately for me. It happens to be

here, where there's no fishing. But it's also in the middle of nowhere. And it's very very very very very weird, weird little spot, we found it. I just don't foresee. Many people finding. But then again, all these creeks and estuaries, and everywhere we live, are,

are eventually found by someone. Because
there is a big guy
interest where we live in
exploring and forging
in a while there repairs.

Oh yeah that's right Jan I got your message right away, great delight it. are you related to me. What sort of wildlife is out here What's up, Nick Ben How you doing, by the way. Good, you're like I could use a vacation let's go to vacation cabin.

Phil what's up was kill. Yeah, he's a good dog man he sticks right beside me always watching my surroundings because I'm always running around and not. I guy.

No joke I,

I get so into what I'm doing and chatting with you guys. I don't get, I don't really get a look around so much I try to give you eye contact. And if I'm looking like this you can't hear me. Yeah, so I don't get my surroundings very well he does that for me.

Oh, well, what's up close in guard dog. Let me finish the sharpening here and I'll grab my phone out we're about done here.

Okay, I got to get off the lawn.

See, that's where the gloves, came in handy. I would have been on the ground that bar but I didn't want to cut my hand I'd rather

wear gloves be protected guys.

Come on, with the sword let's go here.

I can't find my like love oh man oh could, it doesn't matter.

I'm not gonna spend 20 minutes looking for a glove. I

am just not gonna be my day today. I'm always losing stuff. All right, real quick.

If he gets in touch. He's going to ask about the mil by one, then shout you out on your YouTube channel, y'all hear that, that's awesome news. Plus, if I also get a few other mates.

Y'all man You're amazing.

That is awesome. Yeah,

you got you guys very awesome all you crazy guys. Awesome.

Dana, how you don't know.

Oh, he's a very fast dog. All right.

Yeah, he's a very very very fast agile dog so if you guys know, he's a horrible South African master. These dogs are actually very. They're little they're the most agile the big dog breeds. And

they're very badass.

I've no idea what is barking at Crow, probably.

We done.

Let's get them. Let's get to work guys, check your oil.

Well yeah, wolf das fantastic man and, good, good, have you do and thank you so I should I should reach out to the. These last two chainsaw Mills. I had, I don't, I got so many people that by the K bar knives and stuff because I they see me use it on screen, and some of the stuff that we're using. I'm getting a lot of inquiries about and it'd be really neat to reach out when we reached out to steel, actually I did it somebody on in our community actually reached out to steel for us. And that's pretty neat. So,

right here.

What's up warm.

Only one dog is it sound like more dog is all over the place any. We only have bear.

And he hates crows,

he barks at crows
 ox so you want to hear funny story about this crow. So,
 today days before I started this
 sabbatical in Germany. And I coming out here. I hiked
 out my gear. I had to hike out the chainsaw. I got the gaso-
 line, the chainsaw oil. Hey, bring it back for firewood fan-
 tastic on the deep cycle marine battery, my x material, and
 my air protection, my cooler, my bags of food. 30 to 45
 minute walk you can only imagine, I'm not going to be able
 to carry too much at a time. You know,

so several trips were made.

And then I spent the next day hanging out my daughter.
 My daughter's rather.

Both of my kids, because I knew I was gonna be out here
 a long time. And

I have my coffee, so I brought a container coffee in my
 bags I sat down, my bags down and around, I rounded the
 corner to that big old just gigantic crow. Just challenge chal-
 lenge, just

right through the coffee cans. Yeah,

he,

he put it, he put a good hurt on that can. So,

I know he's building a nest I see him building a nest.

I probably got that nest done in no time.

Yeah, that's right. Well, I just didn't want to say any
 names I didn't know I whenever people do stuff like that for
 me I just, I don't know, sometimes, like, saying the name, I
 know that certain things that people just want to be locked
 out of or, you know what, no i think you know what I mean.
 So yeah,

thank you. You're absolutely amazing.

Oh really.

Oh yeah, crow's nest is a big CRO.

Okay, cool. Well, I appreciate that man that's what
 three or four good pals are about.

You got three or four guitars you have yourself tried
 them anyway nothing stronger than that, maybe we ought
 to stick together so I see it. I appreciate that you guys are
 awesome.

What are you going on about their minute Cole.

I missed your messages.

Oh, where do I sleep at night. Okay, let's get back to
 that one.

Don't be so hostile here man we have a good community
 be happy.

I mean you can't be happy with that shit going on I do feel
 bad for you. I don't know what to say that. Where do I sleep
 though I answer that question. My woodshed, but we built
 a woodshed. That was our first goal. Actually our very first
 goal was actually getting off the ground, 80% back down to
 the ground. Get your ass off that ground. Alright, you don't
 want to sleep on it. You sleep on that ground you're going to
 find yourself cold in the rain forest especially with the rain
 we get here, and amount of moisture on that ground, you're
 gonna find yourself. Wet as well. So getting off the ground is
 very important thing. I got lifestraw here was my water.

All day long.

I haven't heard anything back from Phil yet though I
 haven't yet. But that's all great department. Okay.

No baby.

All right, we're gonna go for a walk without the
 backpack you guys for this thing.

The hardest part about doing a tripod stream is the
 amount of walking I got to do with carrying crap, I don't
 get two hands to be free. Anyway, we're gonna go take a
 look and see what we're have to work with me you guys are
 new in here Don't be shy to say hi if you like we're doing
 hang out. Maybe you don't tune a little bit later we'll prob-
 ably do something completely different. Right now we are
 going to do some work. We're gonna drag some logs down

I just got to find out where my next log is gonna be. I have done several bushcraft and survival streams in this location. I have built two to two different shelters, and well three, technically, about to do a fourth.

What's up terrible.
